Day 2 – Kuranda Train and Skyrail, cruise starts

The Kuranda Train and Skyrail Tour starts at Freshwater Station (North Cairns). The train wends its way up a steep climb with spectacular views of bridges and waterfalls. The train line now ends at Kuranda which is full of tourists but is still a lovely spot. The return trip down the Skyrail gives a quite different appreciation of the scenery - well worth stopping at the Barron Falls lookout. Back to Cairns to join the cruise ship (Coral Princess II) at Cairns Wharf and depart for an overnight cruise to Cooktown and the first of our spectacular sunsets.

Day 4 - Lizard Island and Ribbon Reef 9

Lizard Island is the most northern part of our cruise and we spent a delightful few hours swimming, snorkelling and even a dive lesson. Turning south, our next stop was at Ribbon Reef 9 which does not appear above water level at high tide. A wonderful spot for glass-bottom boat viewing and snorkelling. Another beautiful sunset.

Day 7 – Nathan Reef and Dunk Island

The cruise takes us to Nathan Reef (not far from Cairns) another good spot for snorkelling and feeding the brightly coloured fish. Next we head south to cyclone-devastated Dunk Island - sad to see all the damage to the buildings and vegetation - it will be a while before that resort is up and running again.
