Day 7 - Drysdale River Station, Mitchell Plateau, Rock art sites

From Drysdale, we head off along the Kalbarra Road towards the Mitchell Plateau.

We explored glorious Wandjina and Gwion rock art sites before crossing the King Edward River and seeing large stands of Litoria Palm.

Arriving at Outback Spirit's Ngarrindjari Station Camp, we were greeted by Remy, our guide on a previous trip to Lake Eyre.

Day 8 - Panamint-Unaui (Mitchell Plateau), Panamint-Unaui walk, Mitchell Falls

Here joined the Panamint-Unaui walk down from the camp to the Mitchell Plateau. Gorgeous waterfalls and examples of Gwion and Wandjina rock art as well as lots of flora and fauna made for an interesting and rewarding experience.

After lunch the helicopter rose down to the falls which did not contain much water as it was quite late in the season.

We all enjoyed a bird's eye view from a helicopter on our return to the camp where Harrold the Falcon greeted us.

Days 12-13 - Purnululu (Bungle Bungles), Cathedral Gorge walk, from the air, Echidna Gorge walk

We then headed southeast to Purnululu (Bungle Bungles) with its spectacular scenery. We drove into the rocky part of Purnululu and most of us did the Cathedral Gorge walk which ends in a spectacular amphitheatre with its overhanging cliffs. After the walk many of us took a helicopter ride over Purnululu with good aerial views of the striped rocks.

Our next trip took us to the northern part of Purnululu where we walked up the very narrow Echidna Gorge. On our way out we stopped at the Purnululu car park for a picnic as the caravans are allowed into the National Park.
