*Coastal Drifter* is a custom David Folkes-designed 42 ft (12.8m) bluewater steel-hull cruising sloop, constructed at Nanaimo Boatyards by Douglas Gilroyd and launched in 2006.

Discover your own piece of ocean paradise on this turnkey boat. Everything is already to sail away with bedding, dishes, cooking equipment, tools and spares galore onboard. This sturdy steel-hull vessel could be yours! Crafted by a seasoned builder on picturesque Vancouver Island from a David Folkes 43 design, *SY Coastal Drifter* was launched in 2006 from the prolific boatyards of Nanaimo Canada, and embodies quality both inside and out. She has sailed over 8000 nautical miles; from the west coast of Canada to her current location in Fiji.

*Coastal Drifter* is safe and forgiving. She'll be your gateway to the famous islands and reefs, while retaining the capability for making passages to new horizons and adventures beyond.

Consider the yacht as a movable beach, ready to take you wherever you want to go. Head ashore in the lightweight AB RIB tender with reliable Nissan 6 hp for provisioning. Or quickly reach the islets, coves, bays, and islands, to explore the beaches and reefs. Immerse yourself in the tropical waters and weather!

The fuel capacity gives you peace of mind and the large fresh water tank combined with the high-volume RO watermaker removes any worries about shortages. The 600W solar panel array makes it possible to live off the grid for weeks at a time without worry and tradewinds power up the wind generator

to add to your energy source. The new BetaMarine 60 diesel engine with only 600 hours is a reliable and powerful addition to the sail power.

If you've got a thirst for far-off adventure, or just want an affordable vacation accomodation to drift about in the tropical waters, *SY Coastal Drifter* is ready to transport you any of the thousands of anchorages in Fiji's extensive and sheltered archipelago, or on to other South Pacific destinations and beyond.
