<b>Painting EIFS with a Matching Paint color</b>	Purchase paint at Benjamin Moore use "Benjamin Moore [Insert Code]". When purchasing paint at Sherwin Williams or Home Depot, ask for a match to "Benjamin Moore [Insert Code]".	Don't ask for Benjamin Moore by Name, although it is a good double check. Don't ask for legacy Duron colors since going out of business.
<b>EIFS Replacement</b>	Use the as-built STO products, which are still available by color and number listed.	Don't deviation from the original product as it can compromise the look in both color and texture.
<b>Roofing Products</b>	Certainteed XT25 3-tab roof shingles are replacements. These are flat tiles. Be advised that the Oakwood color has been discontinued and replaced with Weathered Wood. Architecture Shingles are now allowed - use Certainteed Lankmark. Note: Extended warranty shingles are often Architectural shingles.	Don't try to "eyeball" it, or leave it to your vendor to match without using this guide.
