

## Food

We appreciate your cooperation in bringing your pet's food along with a few extra portions just in case you get stuck somewhere.

### Kibble & Treats

Label the food with your pet's name and amounts normally given. We will go over feeding instructions when you check in with your pet and our intake form will be filled out with your instructions as well.

If you are measuring food to bring with your pet, please take into consideration that small amount changes can add up over a longer stay. It is a good idea to send 25% more food than you think your pet will need during their stay with us.

Should your pet run out of food during their stay, we can provide our dry kibble that we carry at the resort. Keeping your pet on the diet they are used to is best for their health so we appreciate that you send ample food for their stay with us.

If your pet requires a special diet and they run out of their food, there is a charge for us to pick up your pet's food at the store or veterinarian.

### Raw Food

We will happily handle your pet's raw food if that is the diet you have them accustomed to. Please bring raw food completely frozen with only one portion thawed for your pet's first meal with us. Quality control is of utmost importance. We do not stock raw food so please ensure you send enough for your pet's stay and additional portions of raw should you be delayed. There is a charge should we have to go out to pick up more raw food for your pet if you are unable to return and your pet runs out of their raw portions.

---

### Medications

We do not charge to administer most medications to our guests. A \$5 fee per day will be added should the medications be difficult to administer or there are multiple medications or supplements being sent. Medications should be limited to those that a pet owner would normally do themselves (ie-topical or oral applications).

It is recommended for all customers to call in advance to go over the medications with someone from our team. That way we can ensure that we are able to accommodate the medication routine for your pet during their stay with us in advance. Please correctly label all medications and instructions to administer the medications coming to the facility. We ask that medications come in with the original packaging from the veterinarian and proper dosage is on the packaging.

Please let our staff know if you have altered doses from the vet instructions.

**\*We are unable to accept guests requiring insulin or any medication that requires a full stomach.**

**\*Medications must be given between our staffed times of 7:30am-6pm daily.**

Any medications outside of those times will NOT be accommodated and will need to be altered.

**What to Bring**      email: [contact@fitzpatrickkennels.com](mailto:contact@fitzpatrickkennels.com) or call 778 753-6665

Email: [contact@fitzpatrickkennels.com](mailto:contact@fitzpatrickkennels.com) or call 778 753-6665 any questions or concerns regarding your pet's stay with us.

\*Fitzpatrick Kennels assumes no responsibility for incorrect dosage, or any complications caused by treatment.

---

### **Treats, toys, and blankets**

We are happy to supply blankets and pet cots for our guests.

If you feel your pet needs something comforting from home, feel free to bring something that can be laundered.

---

### **Vaccinations (Canine)**

Each guest must bring proof of the following vaccinations:

-Bordetella (Canine Cough)

-DHLPP 1 or 3 year accepted (Distemper, Parvo, Parainfluenza)

Rabies (recommended but not required)

\*Titer tests are accepted. Bordetella vaccine must be given yearly.

### **Vaccinations (Feline)**

Each guest must bring proof of the following vaccinations:

Feline viral vaccine (F.V.R.C.P.)

Please reach out to us via phone or email if you have any questions regarding our vaccine policy.
