Top 75 Logic Key Commands

These 75 were in alphabetically order and considered the most popular by Chris Vandeviver of YT Why Logic Pro Rules. Learning and memorizing these key commands greatly improves your productivity, versus using the menus or icons in the menu bar. When tracking, recording, editing, and arranging, the speed of the key commands from your hands on the computer keyboard is huge. Many of these key commands are also available from a midi controller keyboard (with buttons, dials, faders and pads) and on control surfaces like the Presonus Faderport. In my case, I've added commands like Goto Marker, Zoom In/Out, and Editing to my Novation Launchkey 49 which already delivered transport controls, faders and smart controls. In this way, I don't have to touch the computer keyboard when I'm playing or recording. It's awesome!

If you don't have the time or inclination to learn the top 75, just learn the 25 I use the most (in bold).

Lastly, the full list of Logic Key Commands is below, from the Logic User Manual

Key Commands

Navigation & Transport

- 1. Spacebar = Start/Stop Playback
- 2. Return = Returning to beginning of project
- 5. comma, = rewind by 1 bar
- 6. period . = fast forward by 1 bar

Go to Previous Marker and Set Locators = Option-Comma (,)

Go to Next Marker and Set Locators = Option-Period (.)

- 4. Command and L/R arrows = zoom horizontally Command and up, down arrows = zoom vertically
- 3. Option and ' = Create Marker
- 7. Command and + = vertical zoom in waveform
- 8. Command and = vertical zoom out waveform
- 18. Command and D = Duplicate Selected Track
- 55. Command and R = Repeat Regions
- 60. Command and T = Split Selection with Playhead

Common to MacOS Apps & Logic

- 10. Command and A = Select All
- 16. Command and C= Copy
- 65. Command and V = Paste
- 70. Command and X = Cut
- 57. Command and S = Save
- 52. Command and Q = Quit Application
- 73. Command and Z = Undo

One Letter Quick Key Commands

9. A = Show/Hide Automation

11. B = Smart Controls

- 14. C = Enable/Disable Cycle mode
- 17. D = Show/Hide List Editors
- 20. E = Open/Hide Editor
- 22. F = Show/Hide Project Browser
- 24. G = show/Hide Global Track Lanes
- 27. H = Hidden Tracks

30. I = Show/Hide Inspector

32. J = Join Regions

- 33. K = Metronome
- 36. L = Loop Regions/Cells
- 39. M = Mute/Unmute selected Channel Strips
- 42. N = Score Editor
- 45. O = Loop Library
- 48. P = Piano Roll

51. Q = Quantize

- 53. R = Record
- 56. S = Solo Selected Channel Strip
- 59. T = Mouse Tail Menu
- 62. U = Set Rounded Locator and Enable Cycle Mode
- 64. V = Show/Hide Plugin Windows
- 66. W = Audio File Editor

68. X = Mixer

- 71. Y = Opens Library
- 72. Z = Toggle Zoom to fit Selection or All Contents

Other

- 12. Control and B = Bounce Regions in Place
- 13. Control, Command and B = Bounce Track in Place
- 15. Option and C = Open/Hide Color Palette
- 19. Control and D = Open Drum Replacement/Doubling (when track is selected)
- 21. Command and E = Export Selected Tracks
- 23. Command and F = Show/Hide Flex Time/Pitch
- 25. Shift, Command and G = Create Summing Stack with Selected Tracks
- 26. Shift and G = Enable/Disable Groups

28. Control and H = Hide Selected Track

- 29. Command and H = Hide Application
- 31. Command and I = Import Files
- 34. Command and K = Musical Typing
- 35. Option and K = Key Commands Menu
- 37. Command and L = Learn New Controller Assign
- 38. Option and L = Live Loops Grid Only
- 40. Control and M = Mute/Unmute Selected Region

- 41. Shift, Command and M = Show Master Output Track in Tracks Area
- 43. Option, Command and N = Create New Track
- 44. Option and N = Show Tracks view only
- 46. Option, Command and O = Open Movie
- 47. Shift, Command and O = Movie Track
- 49. Option, Command and P = Note Pad
- 50. Shift, Option and P = Show Selection-Based Processing (when track is selected)
- 54. Shift and R = Capture as Recording (specific to MIDI)
- 58. Option, Command and S = Create Software Instrument Track
- 61. Control and T = Create Tracks for Selected Channel Strip
- 63. Command and U = Set Locators/loop by Regions and Enable Cycle Mode
- 67. Shift and W = Open selected Audio Region in External Sample Editor (RX)
- 69. Control and X = Open Remove Silence Dialogue for Selected Audio Region
- 74. Control and Z = Toggle Zoom Focused Track or Row
- 75. Option and B Show Both, Live Loops Grid and Tracks View

Key commands for Global Commands in Logic Pro

The following table reflects default key commands included in the U.S. factory preset.

Function	Key command	Available when
Record	R	
Record Into Cell	Option-R	
Record/Record Toggle	III Asterisk (*)	
Discard Recording and Return to Last Play Position	Command-Period (.)	
Capture as Recording	Shift-R	Enable Complete Features
Play	Ⅲ ⊼	
Pause	iii Period (.)	
Stop	Ⅲ 0	
Play or Stop	Space bar	
Preview Selection-Based Processing	Option-Underscore (_)	
Rewind	Comma (,)	
Forward	₩V	
Fast Rewind	Shift-Comma (,)	
Fast Forward	Shift-Period (.)	
Forward by Transient	Control-Period (.)	
Rewind by Transient	Control-Comma (,)	
Play from Left Window Edge	Shift-⊼	Enable Complete Features
Go to Position	III Z	
Set Punch In Locator by Playhead	Control-Option-Command-I	
Set Punch In Locator by Rounded Playhead	Control-Option-Shift-Command-I	
Set Punch Out Locator by Playhead	Control-Option-Command-O	
Set Punch Out Locator Point by Rounded Playhead	Control-Option-Shift-Command-O	

Set Locators by Regions/Events/Marquee and Enable	Command-U	
Cycle	Command-O	
Set Rounded Locators by Regions/Events and Enable	U	Enable Complete Features
Cycle		Enable complete reatures
Play from Selection	Shift-Space bar	
Swap Left and Right Locator	iii Equal Sign (=)	
Move Locators Forward by Cycle Length	Shift-Command-Period (.)	
Move Locators Backwards by Cycle Length	Shift-Command-Comma (,)	
Go to Selection Start	Control- Control Control	Enable Complete Features
Go to Selection End	Control-Ъ	Enable Complete Features
Go to End of Last Region	Option-	·
Go to Beginning	٥	
Create Marker	Option-Apostrophe (')	
Create Marker Without Rounding	Control-Option-Apostrophe (')	
Create Marker for Selected Regions	Option-Shift-Apostrophe (')	
Delete Marker	Option-Delete	
Set Locators by Marker and Enable Cycle	Control-Option-C	
Set Locators by Previous Marker and Enable Cycle	Control-Option-Comma (,)	
Set Locators by Next Marker and Enable Cycle	Control-Option-Period (.)	
Go to Previous Marker and Set Locators	Option-Comma (,)	
Go to Next Marker and Set Locators	Option-Period (.)	
Go to Marker Number	Option-Slash (/)	
Rename Marker	Shift-Apostrophe (')	
Go to Marker Number 1	1	
Go to Marker Number 2	III 2	
Go to Marker Number 3	iii 3	
Go to Marker Number 4		
Go to Marker Number 5	Ⅲ 5	
Go to Marker Number 6	iii 6	
Go to Marker Number 7	₩ 7	
Go to Marker Number 8	Ⅲ 8	
Go to Marker Number 9	III 9	
Go to Marker Number 10	iii Control-0	
Go to Marker Number 11	III Control-1	
Go to Marker Number 12	iii Control-2	
Go to Marker Number 13	iii Control-3	
Go to Marker Number 14	iii Control-4	
Go to Marker Number 15	::: Control-4	
Go to Marker Number 16	iii Control-6	
Go to Marker Number 17	::: Control-6	
Go to Marker Number 18	iii Control-7	
Go to Marker Number 19	E Control-9	
Cycle Mode	Continue Shift Command Pariod ()	
Double Cycle/Loop Length Halve Cycle/Loop Length	Option-Shift-Command-Period (.)	
Autopunch Mode	Option-Shift-Command-Comma (,) Control-Option-Command-P	Enable Complete Features
Replace	iii Slash (/)	Lilable Complete reatures
Solo Mode	control-S	
Set Solo Lock Mode	Option-S	
Jet Joio Lock Widde	Орион-3
