*Offers private virtual or in-home training options

If your dog has severe behavior issues such as fear, aggression, severe anxiety, or other behavior issues impacting your pet's or your quality of life, please schedule a behavior consultation with Dr. McClanahan here at Four Lakes.

If you'd like to use a trainer that isn't on our list, view the link below to help choose a trainer who uses science-based, force-free techniques. We do NOT endorse punishment-based training, including the use of shock collars, prong collars or choke chains.
