

RADIC8

Make your return to the office with safety and air quality in mind.

Many offices that have been closed for months will open. Make the return for you and/or your team a safe one with great Radic8 air quality systems distributed by Prescient^x.

- The **Hextio** unit is ideal for an individual when situated on a desk, counter, or even a bedside table.
- Perfect for personal use, thanks to its power fan and advanced photocatalytic oxidation technology.
- Hextio's airflow hood can be directed towards an individual's breathing space, providing clean, safe air, regardless of the surroundings.
- With no installation required, Hextio is plug-and-play indoor safety for people on the move.

VIRUSKILLER™

- The **VK 401** neutralizes pathogens in large areas up to 60m².
- Pathogens that can pass through traditional filters are deactivated in a UV-C Reactor Chamber, delivering clean, hygienic, and carefully controlled air.
- Low running costs. Simple installation and maintenance. Stylish and compact.
