

Join the 3rd Annual American Legion Auxiliary Unit 1038 Fight Against *Cancer*

Join The American Legion Auxiliary Unit 1038 Brave Brigade as we come together to raise awareness about cancer and the importance of early detection—because early detection saves lives.

We will begin the evening by completing two meaningful service projects that will benefit patients at the Bronx VA Hospital. These projects are dedicated to honoring the memory of Gia Gentile, a remarkable young girl whose compassion and love for our veterans continue to inspire us. Gia was a beautiful, brave, and resilient 9th grader. In March 2025, while receiving comfort care at home, she asked if there was something she could do to help veterans. Even during her own battle, her passion for serving those who served our country never wavered.

To keep Gia's legacy alive, let's "Live Like Gia!" and "Be Kind"

In Gia's memory, we invite you to join us in carrying forward her legacy of kindness and service. Together, we can honor her life, support our veterans, and help spread the message that early detection saves lives.

Consider donating to help find a cure! To donate, checks are written to American Legion Auxiliary Unit 1038, in the memo please write cancer awareness event, Zelle to: ALAunit1038ny@gmail.com. All funds raised will be donated to the **American Cancer Society**.
