About Us

מה אנחנו עושים ?

Grand Unified Optics (Beijing) Co., Ltd committed to providing optical components, industrial imaging lens and imported photoelectric detection instruments to customers. Our products cover optical fields which including optical components, machinery, optical detection, coating and so on. Thorough understanding of customer's needs, we providing timely technical support services and help solving problems and difficulties they meet, finally push our products to the market.

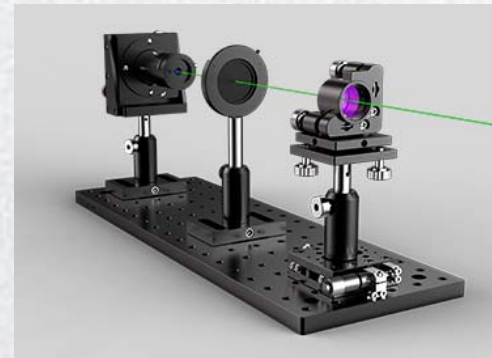

Optical Components

רכיבים אופטיים

Imaging Lens

עדשות מתקדמות

Optomechanical Components

רכיבים אופטו מכניים

Optoelectrical Equipments

ציוד מדידה

Factories located

5 מפעלי ייצור בסין

Appearance Inspection

Inspection surface quality of the optical components, such as spot, scratches, watermarks, dust and edge collapse, etc.

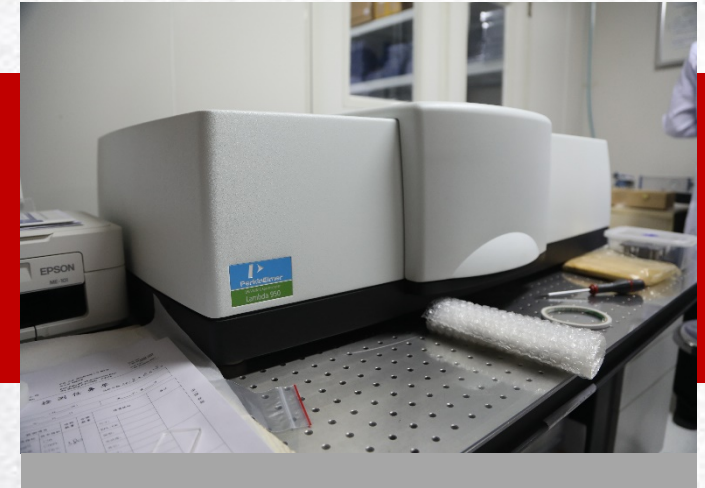

Performance Testing of Optical Components

Testing Equipment included : Goniometer, Interferometer, Spherometer, Schlieren device, etc.

Test parameters:

Surface accuracy, lens focal length、 Sphere Curvature Radius and prism angle, etc.

Coating inspection

Testing equipment included: Spectrophotometer, Transmittance test instruments

Test parameters:

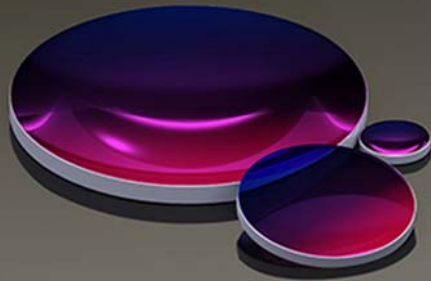

Film transmittance, Reflectivity, Beam split and Cut-off parameters, etc.

Product Range

אופטיקה לראיית מכונה ועדשות

Grand Unified Optics 's products mainly include Four types: **Optical components, Imaging Lens, Optomechanical components and Agent Optical Measurement Equipments.** At the same time, we are adding some new products to expand our product coverage.

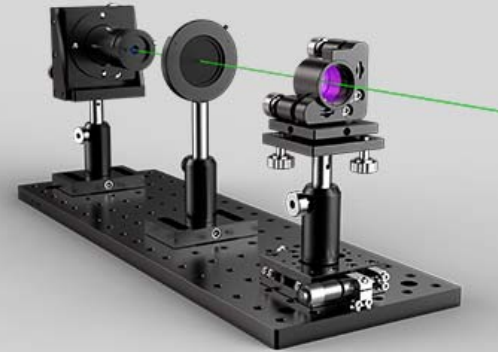

Optical components

Lens / Beam Splitters / Mirrors / Windows / Gratings / Prisms / Wave plates / Fibers ,etc.

Imaging Lens

FA Lens / SWIR Lens / Telecentric Lens / Infrared Lens / Line Scan Lens, ect.

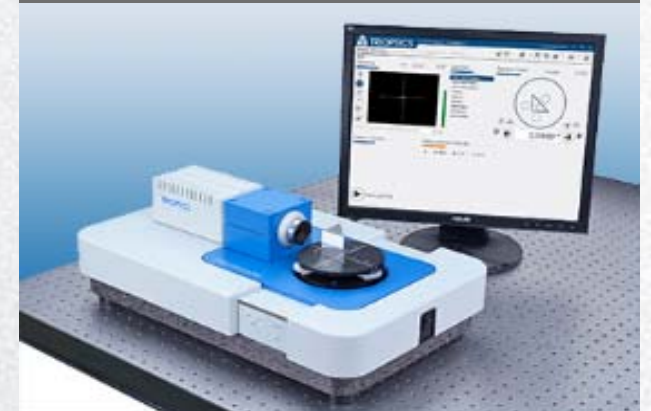

Optomechanical components

Optical bridge system / Lens adjusting Frame / Nanopositioning Motion system / Stages / Optical Platform

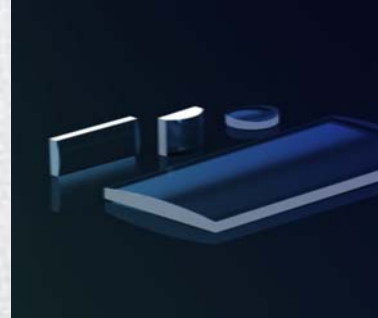

Agent Equipments

Optical Power Monitor / Monochromators / Integrating Spheres / TRIOPTICS High Precision Optical Measurement Systems / INFRAMET Imaging / Laser systems evaluation

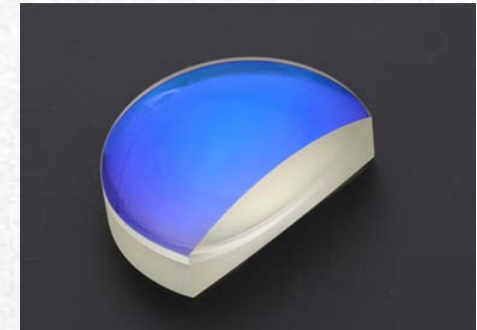

Lens
עדשות

Cylinder Lens
עדשות צילינדריות

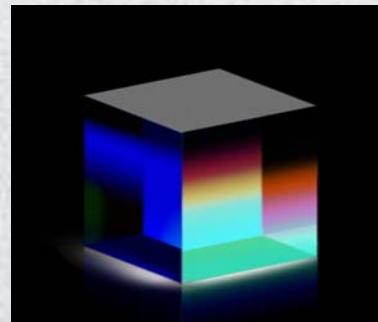

Aspherical Lens
עדשות אספריות

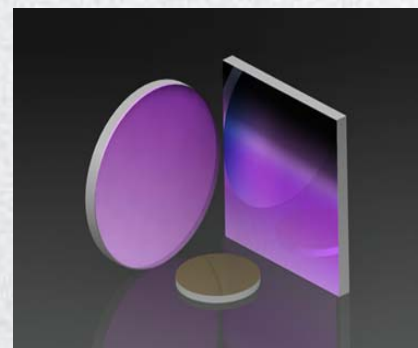

Achromatic Lens
עדשות אכרומטיות

Prisms
פריזמות

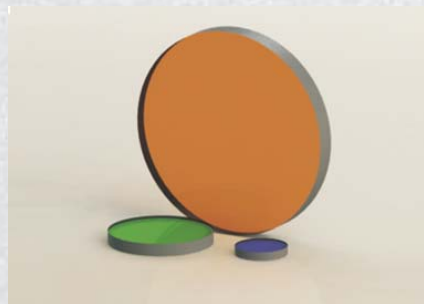

Beam splitters
מפצלי אלומה

Mirrors
מראות

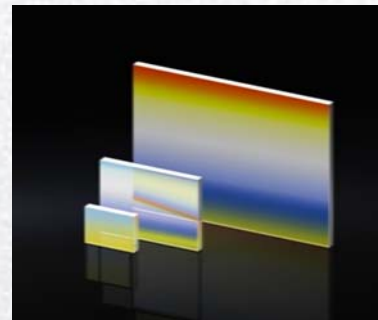

Window
חלונות

Filter
פילטר

Wave Plate
לוחיות גל

Grating
סבכה/סורג

Polarizer
פולוריזרים

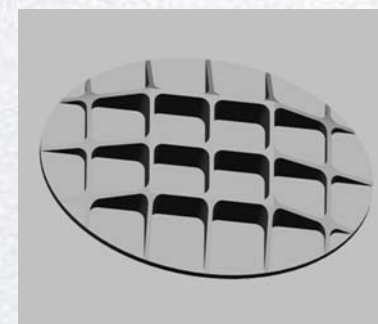

Laser Optics
אופטיקה ללייזרים

Imported CVD ZnSe
Material

Imported CVD ZnSe
Material

SiC Material
עדשות ומראות
קרמיים

FA Lens

עדשות למצלמות

1/1.8" Sensor Fixed Focal lens
2/3" 2 Megapixels Fixed Focal Lens
2/3" 5 Megapixels Fixed Focal Lens
1 inch 8 Megapixels Fixed focal lens
4/3" 10 Megapixels Fixed Focal

SWIR Lens

עדשות SWIR

25.6mm SWIR Lens
1"SWIR Lens

Telecentric Lens

עדשות טלצנטריות

Large FOV Double Telecentric Lens
Compact High Magnification Double Telecentric Lens

Line Scan Lens

עדשות שורה

Continuous variable Magnification
Line Scan Lens

Manual Zoom Lens

2/3" Manual zoom lens
עדשות זום ידניות

Motorized Zoom Lens

Motorized Zoom Lens
עדשות זום ממונעות

Infrared Lens

Infrared Lens
עדשות אינפרא אדום

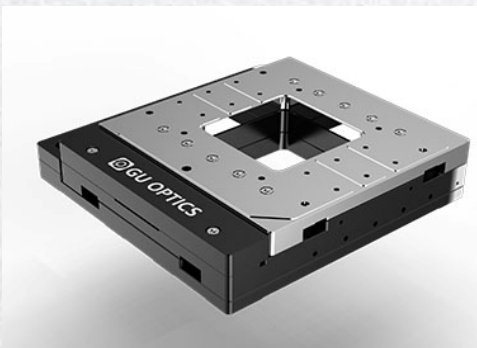

Relay Lens

Relay Lens
עדשות ממסר

Optical Bridge
מגשרים אופטיים

Nanometer Motion
System
מערכות הינע מתקדם

Optical Tables
שולחנות אופטיים

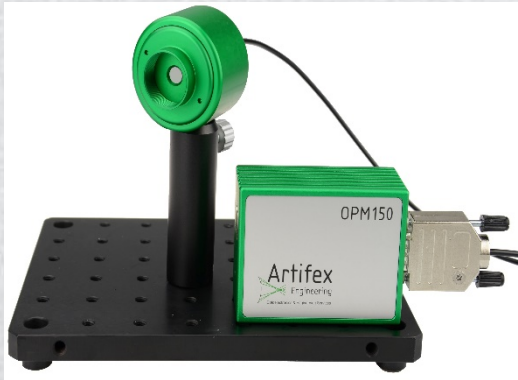

Stage

Equipments

Business Scope

יישומים עסקיים

Application field

Our products are widely used in scientific research institutions and , machine vision, medical, environmental protection, agriculture, industrial production, security, laser, biochemical and other fields.

חומרים:

- גרמניום
- ספיר
- צלקונייד
- קלירטראן

Enterprise qualifications

אישורי אמינות בינלאומיים
ISO 9001 כולל

Introduction

Since establishment, we pay great attention to R&D of new products, quality control and acquired relevant qualification certifications

In 2017

Passed ISO9001 Quality System
Authentication

In 2018, our company was certified as a China High Technology Enterprises and Beijing Zhongguancun high-tech enterprise.

תודה !!

Win-Win Cooperation **THE END**
