

Concrete Construction Laborer

Company: JP Tank Inc
Location: Rosendale, Wisconsin
Employment Type: Full-Time
Pay Range: \$23.00 – \$35.00 per hour (based on experience)
Industry: Concrete Construction / Agricultural Infrastructure

About JP Tank

JP Tank Inc is a specialty concrete construction contractor headquartered in Rosendale, Wisconsin. We build large concrete tanks, digesters, waste storage systems, and other agricultural infrastructure projects that support modern farming and renewable energy production.

Our projects help farms manage waste efficiently and support clean energy systems such as anaerobic digesters.

We operate throughout Wisconsin and the Midwest and occasionally perform projects nationwide.

Our team values **hard work, craftsmanship, safety, and reliability**. We are looking for motivated individuals who want to build a career in concrete construction and grow with our company.

Position Overview

JP Tank is seeking dependable **Concrete Construction Laborers** to join our field operations team.

This position involves hands-on work building large reinforced concrete structures such as agricultural tanks, waste storage systems, and other infrastructure projects.

Employees work outdoors in a physically demanding environment and travel to job sites as required.

This role is ideal for individuals who enjoy working with their hands, working as part of a crew, and contributing to large construction projects.

Pay Structure

Pay is based on experience level:

Entry-Level Laborer:
\$23 – \$25 per hour

Experienced Laborer:
\$25 – \$29 per hour

Key Employee / Lead Laborer:
\$30 – \$35 per hour

A key employee is a highly experienced concrete worker who provides leadership on the crew but may not be a foreman.

Weekly overtime opportunities are common.

Travel & Work Schedule

Our projects vary in location and travel requirements.

Local Projects

Approximately 60% of our work is within driving distance of our shop in Rosendale, WI. Employees meet at the shop and travel to job sites in company vehicles each day.

Semi-Local Projects

For jobs more than 1.5 hours from the shop, employees may stay in hotels during the work week (typically Monday through Friday).

Long-Distance Projects

For projects several hours away or out of state, employees may stay out of town for up to 2–3 weeks at a time before returning home.

Transportation is provided using company vehicles.

Per Diem

Employees receive a **\$50 per day per diem** for nights spent out of town.

Company-Paid Hotel Arrangements

For in-state projects employees may share hotel rooms.

For longer distance projects employees typically have their own rooms.

Work Schedule

Typical start time:

6:00 AM – 7:00 AM

Typical weekly hours:

60+ hours per week

Work days:

Monday through Friday

Occasional Saturdays may be required, especially during extended out-of-town projects.

Night shifts are very rare but early morning concrete pours may occur.

Key Responsibilities

Construction Execution

Assist with construction of reinforced concrete structures including tanks, walls, and foundations.

Tasks include:

Setting and stripping concrete forms

Placing and tying reinforcing steel (rebar)

Pouring and finishing concrete

Installing waterstop and embedded items

General jobsite labor and material handling

Site Operations

Load and unload materials, tools, and equipment

Operate power tools and construction equipment safely

Assist with concrete pours and formwork installation

Maintain clean and organized job sites

Team Support

Work closely with foremen and experienced crew members

Follow instructions from supervisors

Support other team members to complete daily work tasks

Assist in mentoring less experienced workers when applicable

Safety Compliance

Follow all company safety procedures and PPE requirements

Participate in daily safety meetings

Work safely around heavy equipment and construction hazards

Maintain safe work areas at all times

Physical Requirements

Concrete construction is physically demanding.

Employees must be able to:

Lift up to 75 pounds regularly

Work long hours in outdoor conditions

Climb ladders and work at heights

Work in extreme weather conditions

Work safely around heavy equipment and construction machinery

Perform physically demanding labor throughout the day

Preferred Experience

The following experience is helpful but not required:

Concrete construction experience

Experience setting forms

Rebar installation and tying

Concrete finishing

Operating equipment such as:

Skid loaders

Telehandlers

General construction equipment

Experience using power tools and concrete tools

Applicants should indicate **years of concrete construction experience**.

Safety Requirements

Applicants must:

Be able to pass a **pre-employment drug test**

Be willing to follow all **PPE and safety requirements**

Maintain a safe working attitude on job sites

Driver & Transportation

A valid driver's license is helpful but not required.

CDL licenses are highly valued.

Employees typically travel to job sites using **company vehicles**.

Career Growth Opportunities

JP Tank supports long-term career development.

Employees may advance into roles such as:

Equipment Operator
Key-Man laborer
Foreman
Site Coordinator

We also offer apprenticeship opportunities in:

Concrete Finishing
Equipment Operation

Applicants interested in apprenticeship programs are encouraged to apply.

Benefits

Weekly Pay

Prevailing Wage Opportunities on qualifying projects

Medical, Dental, and Vision Insurance

Retirement Savings Program (401k with match)

Paid Time Off (Vacation, Holidays, Sick Leave)

Per Diem for Travel Projects

Company-Provided Safety Equipment

Career Advancement Opportunities

Who Should Apply

This role is ideal for individuals who:

Enjoy hands-on work

Take pride in building large construction projects

Are willing to work hard and travel when necessary

Want to build a long-term career in construction

Apply

Applicants can apply through the job board listing or contact JP Tank directly.
