

he was participating in an active homosexual lifestyle, the countless times he would try to manipulate me by buying my allegiance or intimidating me with threats of removing me from school or taking away my car. I tried to explain to Dr. Walker how frightening it was to me that Gordon can relate to you concerning your interests, as long as it serves his interests, but that he is incapable of establishing a real emotional connection because there is no sincere human emotion within him.'

A5, 25. Ken Kenitzer. "(Gordon) took advantage of my situation in a gross betrayal of decency and trust. Sadly, I was too wounded...to see at the time how devastating and how damaging to me his abuse truly was. I... have worked through tremendous emotional anguish to overcome the anger, the hate, the rage, the powerlessness, the self-rejection, the victimization, and the decimated self-esteem which were Gordon's aftermath. 26. For Gordon, however, there is no awareness, and likely no acknowledgment of impropriety. Gordon does not operate in a way which validates his accountability to others for the consequences of his actions. 28. Gordon does not care for others...What Gordon does is to lie and deceive and hurt those which he claims to love. 29. I believe that Gordon is very deeply wounded at the core. As a wounded human being with tremendous mental faculty, and substantial financial and persuasive power, the potential to harm others is great...Being detached from the consequences his behavior hold for others, Gordon will repeat his patterns of predatory abuse. He will use and manipulate, even the children he claims to love and care for as a father. Gordon does not have boundaries and as a result, he is indiscriminate with regard to inflicting hurt and harm on others. 30...I believe that the most important priority is to isolate him from those who are too vulnerable to defend themselves against the destructive influences of his energy and the damage inflicted by his abusive, self-serving behavior."

9, 10. Thom Harrison. "Gordon has sought out alternative therapies for himself, which have largely centered on the casing out of evil spirits...11. Gordon tried to force this therapy upon Collin and Eric while they were in New York. This unlicensed mental health providers appear to have bought into Gordon's illnesses and his deceptive controlling nature...It appears this treatment attempted to first discredit Barbara and Steven Timothy in their boys' eyes and then continued to destroy these young men's belief in themselves. It seems to be a ploy to aggrandize Gordon's pathological position in the family."

9, 36. Thom Harrison. "Gordon has a narcissistic pattern of over idealizing certain individuals, e.g. Barbara, then devaluing and discarding or destroying them, especially if they do not provide him narcissistic supply by believing his aggrandized image of himself and adulating him. These individuals are especially at risk if they expose the truth about Gordon's deviant, deceptive, dark side. I am concerned about the well-being of Barbara and her children because Barbara has uncovered so many facts about the unsavory aspects of Gordon's life."

9, 37. Thom Harrison. "Gordon is profoundly needy. He threatens, and intimidates his children to keep them near him and entices them with money. He sabotages relationships at work, home and in society. Gordon announces rather than discusses; he tells not asks. Gordon has a hidden agenda and controls his family with control over their money while

he spends freely and lavishly on himself. It is always his feelings that are discussed, not his children's or Barbara's. Gordon is also very good at reading people so this allows him to manipulate them easily."

17, 30. Khaliel Kelly. "Gordon liked to play mind games. He would read people to see what was important to them and then play on that."

3, 10. Collin Timothy. "Initially Gordon convinced my brothers and me that we were the most important people on the earth to him with his gifts and flattering words and letters and promises of all the fantastic things he was going to do for us. But it soon became evident that Gordon was as emotionally absent as he was physically absent."

3, 19. Collin Timothy. "Because Gordon couldn't be emotionally or physically present, he used enticements to keep us in a relationship with him, promises of gifts or trips, many of which did not materialize or had strings attached, e.g. I made a contract with Gordon that he would purchase me a new BMW 3 if I met all of the criteria, which I did. He lied and told me that he had purchased it outright and put it in my name. I later found out that he had only put \$2000 down on a 36 month lease and that it was in his name. The car was repossessed January 2004 and I later learned I had driven it for six months without insurance although Gordon adamantly claimed he had obtained insurance."

3, 20. Collin Timothy. "... besides lying, Gordon also uses threats and intimidation to manipulate people to do what he wants. For example, after I arranged for an internship at Smith Barney during the summer of 2004, Gordon called me and told me he had secured an apartment for us for the summer. When I told him I didn't want to live with him and that I'd found another apartment, he became upset and said he'd been sleeping on the couch at work and had sold his art to afford it. He became desperate and said that we needed those fleeting moments that could only happen by living together so I could see what a changed man he was. When I still refused, he began yelling and said if I didn't live with him he would "take away my car or something."

3,24. Collin Timothy. "But the worst part of the summer began on Thursday, May 29, 2003 when David Hamblin arrived to stay in Gordon's apartment. David who had been Gordon's therapist years ago in New York was now practicing as an Indian medicine man, having had his license revoked, and his specialty now was casting out evil spirits...it was soon apparent that Gordon had also paid them to come to New York to 'set us straight; with messages he wanted us to hear. 25. ...they sat us down and essentially told us that our mom was 'off her rocker,' ...that if she did leave Gordon she would be making a serious mistake and that God would be very angry with her...that our father, Steven Timothy, was a sexual deviant and that we had inherited his problem, that Gordon was wonderful man who had done nothing wrong, and that we both needed therapy from David."

A3, 26. Collin Timothy. "Gordon has an ingenious way of getting other people to do his bidding...I am in awe of how Gordon gets other people to promote him, to do his dark advertising, to speak his unconscionable lies, to make himself appear to be above reproach and make everyone who speaks the truth about him appear to be flawed and crazy...It felt like an inquisition. 26. The doors may have not been locked, but the

dismissed him.' `` Supervisor Juncal Tortosa (A7) experienced the same situation when Gordon insisted on changing the children himself in the men's room at the Grand America Hotel after swimming and said that Gordon took an inordinately long period of time in the men's room changing the children.

10) Gordon Has a History of Sexualized Comments/Stories/Behaviors, Sexualized Play with Lily and Subsequent Sexualized Behavior of Lily

a) Sexualized Comments:

1) According to Barbara, Collin, Eric and Gordon's associates, Gordon frequently made sexual comments and jokes. Both Kevin (A16) and Khaliel Kelly (A17) and Michele Avantario (Statement #7) said, Gordon liked to tell stories involving his genitals. Both had heard Gordon tell a story several times about having his penis rise to the surface of the bathtub and the cat attacking his penis.

2) Michele Avantario (St #7) said, "He (Gordon) invited my boyfriend and me to dinner one night. As we were leaving, my boyfriend commented that Gordon had left his key in the front door. Gordon's response was, 'Oh, I was hoping you'd come back and rape me.'"

2) Gordon also told Khaliel Kelly (A17) about how he had stood naked in a hotel room in front of a window for a long time, not aware that people could see through the glass.

3) Gordon told Khaliel (A17) how he had been on a business trip and received a massage by a young man and that at one point, 'a thrill ran through my body.' Khaliel said that the young man had said, 'you are Jesus, or something to that effect.'

4) Gordon told Khaliel (A17) and Jim Bogner (A13) about neighbor boys vandalizing his home in Hartsdale, tipping over his furniture and smearing feces around the house.

5) Gordon told Jim Bogner (A13) "that he had burned his 'dick' while ironing. He explained that he was naked while ironing and that the iron hit his penis."

6) Gordon subscribed to a website entitled "Penile Fitness," and his pin number was "4950 dick."

7) Gordon worked at the VD clinic while going to college and told his secretary at Ogilvy and Mather, Michele Avantario about how much he like working with the men who had sexual diseases. He told his friend, Brad Nygren, who worked close by that he had no desire to examine the women.

8) He laughed when he talked to Barbara about his friend who worked on an account for feminine hygiene products that she was had worked for the "Bush campaign."

9) He told Barbara, "Wouldn't it be interesting if the scripture, 'kick against the pricks' was really referring to ones dick."

10) From the pulpit at church, with Collin and Eric in the congregation, Gordon said, after his talk about his "near-death" experience, that he "couldn't imagine never making love to Barbara again. At another Fast and Testimony meeting, Gordon expressed to the congregation that "Barbara is a great lover."

11) When he was working at Sundance, Gordon told his associate, Janene James, "The funniest thing happened; I hopped in the shower downstairs and there to my surprise was my naked step-son, Collin.

12) To another associate, Helyane Spivak, he said, "Every Sunday morning the whole family hops into bed together naked."

- 13) To Barbara he was always referring to the size of his penis and how much more well endowed he was than most men.
- 14) He often commented to Barbara that Eric took an awfully long time in the shower and that he thought "he must be masturbating in there."
- 15) When Barbara talked with Gordon about her concerns having the boys work for him summer 2003, since Eric was preparing for a mission, Gordon's reply was that the problem for Collin was not coming to Boston to work, it was taking long showers with his girlfriend, Jessica.
- 16) Gordon told Brad Nygren that he was working late one night at Bonneville and took off all his clothes because it was so hot.
- 17) Gordon told Barbara that one evening he was down in his garden (which is far from the house) completely naked and suddenly people were coming down to visit him so he wrapped himself in a tarp.
- 18) Gordon told Khaliel Kelly(17), Kevin Kelly (A16) and Barbara about a man coming into the Yale house, pinning him against the wall and starting a rhythmic sexual thing against him.
- 19) Brigham Wilcox (St. #25) worked on a yard crew for Gordon and told about how Gordon would hang around the boys who were working, had them take off their shirts, stand in place so he could visualize where to plant his trees and would push them into the swimming pool with their clothes on.
- 20) When Eric had friends over to swim, he said Gordon spent considerable time bring them food etc. and then hid in the shadows and watched them for a long time. Some of his friends noticed Gordon and commented how uncomfortable they felt.
- 21) Barbara reported that Gordon would sit outside Eric or Collin's closed bedroom doors and listen to intimate conversations they were having with their girlfriends.
- 22) Eric said that during a party, Gordon "found him" in his room with a girl sitting on his lap and berated him for letting this girl sit on his lap because he said it would lead to Eric having sex.
- 23) Recently, Eric told Barbara and others that as a teenager, he was masturbating in his bedroom when Gordon came upon him, tried to hide while he watched him, then came in and reprimanded him.

In Spring, 2002, Gordon walked into the bedroom where Barbara was nursing Lily, expressed his jealousy that she could nurse and he could not, then said, "I wish I had breasts so I could nurse Lily. I wish I could nurse Lily through my penis or something." After Lily had been alone three times with Gordon, Barbara noticed she had a preoccupation with her vagina, even inserting her finger or other objects into her vagina. At that time, she also began masturbating. Marta Tortosa (A10) observed this behavior and later, and April Braack, who accompanied Barbara and the children in a therapy session with Dr. Thom Harrison observed Lily masturbating as Dr. Harrison (A9) was talking to Lily about Gordon. In helping the children with their bath, April Braack (A6) also observed Lily put Caleb's penis in her mouth.

b) **Sexualized Dreams involving themes of Pedophilia:** Additionally Gordon's comments reflected his belief, often stated to Barbara and associates, that, spirituality

a) Apparently Gordon's addiction has been so severe that on August 23, 2002, while Barbara was recovering from the in vitro fertilization process for Caleb (**Item 7 Medical Record Notes**), Gordon took two-year old Lily, got his own hotel room and **called five local male prostitutes (Item 8)**. Gordon had missed the in vitro transfer that morning with the excuse that he had to stay in Salt Lake City and work (cell phone bills revealed he was in calling homosexual massage parlors. In the **affidavit of Dennis Webb (A 42)** he states that he was present (February 21, 2004) when "Barbara "confronted Gordon about having called male prostitutes when he was watching Lilly. Gordon paused and then answered, 'I did call them, but I don't remember if they came or not.'"

Dr. Thom Harrison, who **observed Lily masturbate in his office as he was speaking to her about Gordon**, wrote a **limited evaluation (A9)** concerning Gordon and our family which said, "If this possibly was a time (meaning the time Gordon was watching Lily when he called male prostitutes) that Gordon had a male prostitute in his room with Lily and they were engaged in sexual or erotic behavior together, this would well describe the consistent behavior that would trigger Lily's self-stimulatory behavior with dissociation. In the act of Gordon just calling the male prostitutes, he would be in an adrenalized state of sexual arousal, which could create a similar reaction in Lily. When children are presumed asleep and they experience sexual dissociation from viewing sexual acting out behaviors or sexual activity they observe, they often try to mimic the behavior and the experience. This is especially true if one of the partners in the activity is a parent."

Dr. Cline (**14a**) also quoted Michele concerning one of the most pervasive stories about Gordon in the New York advertising community about **Gordon having missed a critical client meeting with Ogilvy and Mather** and subsequently having been found tied to a bed in his apartment (See affidavits of **Jim Bogner A13**, **Kevin Kelly A16**, **Carolyn MacKenzie A34**) "When we went to an important meeting at (ad agency) about the Coke account, Gordon didn't show up. The secretary (at the ad agency) later said **they found him tied to a bed in his apartment, naked with feces smeared all over him.**"

12) Gordon has a History of Setting up Situations for Sexual Advances

Further investigation showed that **Gordon's addictive sexual behavior was acted out not only with male prostitutes, but also by orchestrating situations to potentially make sexual advances towards friends and associates as he got them to sleep in the same bed with him. For some of these he used the ploy that he was being "attacked by evil spirits" in his home and needed protection.** (See Item 1, Affidavits **A13**, 5.13. Jim Bogner, **A16**, 9,11.12. Kevin Kelly, **A17**, 36. Khaliel Kelly, **A18**, 27. Mark Kramer, **A19**, 15. Michael McLean, **A22**, 11. 19. Brad Nygren, **A24**, 13. 20. Scott Swofford. 2. **A 13**, 5. Jim Bogner. "Instead of getting his own hotel room **he wanted to stay with me.**

3. **A 16**, 9. Kevin Kelly. "My first sexually abusive encounter with Gordon... I was asked to share a king size bed with Gordon. . . I didn't mind until he tried to snuggle up against me one night. 12. I was surprised to see Gordon suddenly in the dressing room changing with me. It was spooky. 13. I was surprised to find that he booked only one room for the two of us. . . **Gordon was trying to lure me into some kind of sexual**

perversion with him. 14. If Gordon could treat someone like me this way, someone who was considered a true and devoted friend, I can imagine he may well have designs on others. **And I fear that those designs could target other unsuspecting young men.** My present concern is that Gordon could exploit his own stepsons. When I was a bishop if Gordon had been a member of my congregation. **I would have considered him to be a predator—a wolf among the lambs.** If Gordon could go after his best friend he could certainly go after Barbara's boys. **It's also chilling to consider that Gordon's own children may be in jeopardy."**

4. **A17**, 36. Khaliel Kelly. "LDS Stake President Belnap of New York, New York Stake described to me how he watched Gordon from the stand as Gordon walked up one aisle and down the other before a Sacrament Meeting during Sunday services. He said he felt that Gordon was on the prowl and so he called Gordon into his office where **he warned Gordon to stay away from the members of his congregation."**

5. **A14**, 11. Stan Ferguson. "Gordon claimed to be fearful of evil spirits in his new home. Gordon would sometimes call one of the male employees and ask him to stay overnight in his home."

6. **A 18**, 27. Mark Kramer. "Gordon came in and laid down on my bed with me and said he wanted to 'break down my barriers.. Mark I don't really know who you are.'

7. **A 19**, 15. Michael McLean. 15. "As I stepped out of the shower and before I had a chance to dress, suddenly Gordon walked into the bathroom in his underclothes. I screamed as it scared the heck out of me. **It was clear Gordon had deceived me and set up this encounter."**

Using "Evil spirits" as a Sexual Ploy. Gordon's "involvement with evil spirits" began many years ago: (**A 9**, 10. Dr. Thom Harrison.) "Gordon has sought out alternative therapies for himself, which have largely centered on the casting out of evil spirits. **There are reports of Gordon having a history of being 'attacked by evil spirits,' beginning in about 1981 when he was working at Bonneville International."** (**A19**, 10. Michael McLean, **A 22**, 11. Brad Nygren. **A20**, 16. Diana Walker Neve, **A24**, 13, Scott Swofford.) Apparently Gordon used this "attack by evil spirits" to get the young men from Bonneville to come sleep with him.

8. **A19**, 10. Michael McLean "During the time Gordon was at Bonneville, I heard him claim that **evil spirits were in his home** and that he needed other employees to stay overnight at his home..."

9. **A 22**, 11. Brad Nygren. "He told me he had been **choked by an unseen evil presence.** He only had one bed . . . and **he always wanted me to sleep in that bed with him,** Gordon always wanted to sleep closer than was comfortable to me." **A22**, 19 Gordon repeatedly invited me to come to Chicago to do voice work.... Gordon had me stay with him in his apartment. He had only one bed, a double bed. I slept in the same bed with Gordon every time. 17. I began to become increasingly uncomfortable with Gordon and I had to consider that Gordon might have a romantic interest in me."

10. **A 24**, 13. Scott Swofford. "Probably in 1983 Gordon told us in the creative department that **evil spirits had been doing destructive things at his house.** Gordon

wanted us to rotate schedules and spend the night with him so one person was always with him at night. We got ready for bed in the same room and we were in our under clothes. Gordon wanted to have a prayer so we kneeled down in our underclothes. Gordon kneeled down so close to me.. it caused me to be uncomfortable. 16. Gordon **then said that we could both share the bed.** 19. **Thereafter Gordon bought me expensive dinners and asked me to stay overnight on at least two additional occasions** for his protection. 20. Another weird situation that stands out in my mind had to do with our filming "The Last Leaf" in Chicago in 1983. 22. When we arrived Gordon **wanted to stay with me in my room.** Gordon kept insisting and said that it would help save Bonneville money."

11. **A 13,** 15. Jim Bogner) "Gordon also frequently told me and others about the many times **he would bring homeless men and boys to his apartment to spend the night** so he could 'help them.'" He also described two incidences (**A13,** 14 Jim Bogner, **A 17,** 16. Khaliel Kelly) in which his house was destroyed—one in about 1982 in SLC on 12~" Avenue which he said was done "by evil spirits," but according to the police report (**A22,**13. Brad Nygren) "looked like the result of a dispute between two gay lovers," and another at his home in Larchmont, New York, where he said that boys had broken into his home, destroyed it and smeared feces on the wall.

13) Gordon has a History of Predatory Sexual Abuse, including his own step-son, Collin Timothy, when Collin was 17 years old.

1. In 1996, Collin, Eric and Barbara moved to New Canaan, Connecticut, to be with Gordon (Barbara's oldest son, Adam was a Freshman at BYU), but Gordon rarely came to visit, and instead continued to live in his apartment in New York City, with various college age males (including, at different time periods, two of Mitt Romney's sons,), and **sexually abused a young model who was living with him, Ken Kenitzer (A5, 3.)** in July 1996. About this experience, Ken writes: 27. **There is something fundamentally wrong when Gordon can sexually molest a young person he says he loves as a son. .** **The fact that his stepsons (who were teenagers at the time) were in the same apartment while he sexually abused me did not deter him from seizing what should have been an opportunity to be kind and comforting, and turn it into an opportunity for sexual conquest.** 25. I.. have worked through tremendous emotional anguish to overcome the **anger, the hate, the rage, the powerlessness, the self-rejection, the victimization, and the decimated self-esteem** which were Gordon's aftermath."

2. **Adrian Pulfer was a friend and business associate of Gordon's. (A23,6.** Dennis Williams/Adrian Pulfer. Adrian shared his testimony with private investigator, Dennis Williams and is still in the process of finishing it.) **"I shared a bed with Gordon. During the night Gordon reached his arm over my body and attempted to fondle my genitals. I was groggy from sleep and I just pushed him away. Later he did this a second time and I was more forceful. . . It was clear this was intentional on his part as he had to reach across my body to do it.** 29. The year Gordon married Barbara (1995) and before their marriage, I received a telephone call from Gordon at my Salt Lake residence. Gordon was quiet and subdued and in a trembling voice. Gordon said he needed permission and forgiveness in order to marry Barbara... I assumed Gordon was referring to the time he

attempted to fondle me or to the times he deceived me in business and took advantage of me."

Stephen Wunderli. (A45) was staying in Gordon's apartment with Adrian when Gordon made his sexual advances toward Adrian. "I believe it was the second time Adrian and I stayed in Gordon's apartment that I was a witness to some extraordinary things.. 3. The following morning as I was getting dressed I looked into the bedroom where Adrian had been sleeping. I saw Adrian curled up on one edge of the bed with Gordon on the other side of the bed.. Adrian was visibly upset and looked angry. 4. **Adrian told me Gordon climbed in bed with him in the middle of the night.** 5. **...Adrian told me Gordon had made sexual advances towards Adrian while they were in the same bed."**

The most alarming of these sexual abuses was towards Barbara's son, **Collin Timothy** when he was seventeen. (A.3, 30). "When Gordon had me travel with him or live with him, **he always insisted that I sleep in the same bed with him.** At times, I would protest and try to call the front desk to ask for an extra bed. He would fume and furiously grab the phone from me and explain to the hotel that an extra bed wouldn't be necessary. This was his pattern throughout my experience with him, always trying to manipulate me and get me into the same bed with him. This wasn't just once or twice that he demanded I share a

small twin size bed with him, but more like 30 times. On a trip to St. Johns from Mach 25th to April 1~ of 1999, I ended up sleeping in the same bed with Gordon. I don't remember how he made this odd arrangement on this family vacation, but I was once again sleeping with Gordon. **During the night, I remember Gordon moving in on me, slipping his hand in my shorts and fondling my genitals. When I woke up and realized what was happening, I moved away, clung to the side of the bed, sick and horrified, and told myself to go to back to sleep. He reached around again and tried put his hand on top of my shorts in the genital area. I literally curled up in a ball and stayed up most of the night fearful that it might happen again.** This is the most vivid memory I have of Gordon's sexual abuse when he insisted I share a bed with him, but looking back, there are many other previous times he could have tried the same thing, always when I was asleep, unable to stop him.."

About this kind of Abuse, **Ken Kenitzer(A5,29.)** says:

"What Gordon does is to lie and deceive and hurt those which he claims to love. 29. I believe that Gordon is very deeply wounded at the core. As a wounded human being with tremendous mental faculty, and substantial financial and persuasive power, the potential to harm others is great...**Being detached from the consequences his behavior holds for others, Gordon will repeat his patterns of predatory abuse. He will use and manipulate, even the children he claims to love and care for as a father. Gordon does not have boundaries and as a result, he is indiscriminate with regard to inflicting hurt and harm on others.** 30 ...I believe that the most important priority is to isolate him from those who are too vulnerable to defend themselves against the destructive influences of his energy and the damage inflicted by his abusive, self-serving behavior.

14) Gordon Measured Collin and Eric's Bodies, Took Photos of Them and Friends, Semi-dressed, and made promises to make them models

when I asked Dad why I didn't get to go to my soccer game, **he told me that I had said I didn't want to go, but I never said that.**" This is a perfect example of how Gordon plays with children's and adult's minds and makes them think they've said something they haven't to place the blame on them. The next week when Lily went to Caleb's last soccer game, at which time he got his trophy, she went to the car and cried. She was still upset and confused and reiterated that it wasn't her fault she didn't get her trophy, that she had never said she didn't want to go to her game.

The following two events, evidencing Gordon's use of force and provocation to get what he wants, took place Monday, September 22, 2003, but was very disturbing. Gordon appeared at the door, having given no notification that he was coming. For months Barbara had made arrangements for him to see the children with a supervisor, and he knew this was the plan. I was on the phone with Khaliel Kelly who subsequently heard the entire exchange. Barbara explained to Gordon that besides the fact that he had not informed me he was coming, Lily had been up all night with a fever and that Caleb had a cold so that this was not a good day for a visit, but that tomorrow might be better. As Barbara was closing the door, Gordon yelled, "So, you think you're going to keep me from seeing my children," and **began pushing his way through the door. Barbara struggled to try and close the door, but he overpowered her, ran into the house, grabbed Lily and ran out into the driveway apparently to get into the car.** With Caleb and the telephone in one hand, Barbara followed after him. Lily cried out for Barbara, so holding both children and the telephone, Barbara told Gordon what she thought about his behavior. **She called the Holladay sheriff's office after to report the incidence. (Item 22)**

On August 5 2007, Sunday, Gordon suddenly appeared at Eric Timothy's house in Orem, Utah. Gordon had never been to Eric's home before. Gordon did not ring the bell or knock. He opened the door and entered. Eric's roommates questioned his intrusive behavior and Gordon said he wanted to see Eric. (Since Collin's affidavit claiming sexual abuse from Gordon, both Collin and Eric had determined to not interact with Gordon.) Eric's roommates said Eric did not want to see Gordon. Gordon pushed them aside and began going through the house to find Eric's bedroom where Eric was located at the time. Eric had to tell Gordon several times to leave before he would go. Eric reported Gordon's trespassing to the police.

A9, 37. Thom Harrison. "Gordon is profoundly needy. He threatens, and intimidates his children to keep them near him and entices them with money. Gordon has a hidden agenda and controls his family with control over their money while he spends freely and lavishly on himself. Gordon is also very good at reading people so this allows him to manipulate them easily."

A3b., 55. Collin Timothy. "Gordon makes you dependent on him by making you believe that whatever your greatest dreams are he is the one, and probably the only one, who can fulfill the. This is the way he gains control over you. 56. But on the flip side, if you decide you no longer want to be controlled by Gordon's designs, which require that you prostitute yourself in some manner and feed into his inflated image of

himself, he resorts to using guilt or threats, and if that doesn't work, he begins a campaign to discredit you and systematically destroy you. Gordon undermined my sense of self by assaulting my psyche, making me think I'd said or done things which I hadn't, spreading lies about me to my friends. He enticed me in, abused me, then dropped me when I was no longer of use to him."

A3b., 40. Collin Timothy. I arranged for an internship at Smith Barney during the summer of 2004...Gordon called me and told me he had secured an apartment for us for the summer. When I told him I didn't want to live with him and that I'd found another apartment, he became upset and said he'd been sleeping on the couch at work and had sold his art to afford it. He became desperate and said that we needed those fleeting moments that could only happen by living together so I could see what a changed man he was. When I still refused, he began yelling and said if I didn't live with him he would "take away my car or something."

5. December 24, 2005 (21c) Supervisor: Melissa Smith

p.3. (H0170) "Caleb hits Lily. G. takes Caleb's arm and spanks his bottom. Isn't that a mixed message? Saying don't hit right after spanking your child?"

Indulgence of Sugar and Insufficient Meals –Gordon believes that sugar attracts evil spirits into one's body, yet gives them some form of sugar at every visit, and often does not feed them adequately, but see that they get ice cream. The children often come home saying they are "starving."

1. Gordon indulging the children with sugar and candy at every visit was concerning for obvious health reasons, but the issue of "too much candy" was a concern because of Gordon's belief as stated in his journals that God has told him (Item, p.0085 0129) "sugar attracts evil like a magnet," and "sexual desire shifts when you eat sugar. Residual evil spirit nesting place." Barbara wrote Renaissance a letter, June 30, 2005 about these very concerns in which she said, "Every time Gordon has the children, they are given candy and other sweets. This might be normal for any Disneyland Dad, but you need to be aware that in Gordon's strange thinking, his "God," has told him that eating sugar causes evil spirits to inhabit your body and making him homosexual and that his eating sugar is one of the reasons they return. Please note the amount of sugar he continually provides the children."

2. March 26, 2005 (Item 8) Supervisor: Julie Thorsen 2. "When we first arrived, Gordon asked if the children wanted a peanut butter sandwich, but they didn't respond, so he didn't give them any food. However Gordon had four big bowls of candy which he put in all the rooms, M&M's, chocolate eggs, skittles, and gummy bears. Both Lily and Caleb ate a lot of candy, until it was all gone. I followed Caleb around the house and watched him shovel candy into his mouth, never being attended to by Gordon."

3. December 24, 2005 (21c) Supervisor: Melissa Smith p. 3 (H0170) "No meals for 11 hours!! Just sweets and treats." "Lily hysterical upon return. Tired (no nap) Needs a good meal. Transition difficult back to mom."
