But Ozboz can bring calm to the chaos.

Blu Bear: expanding our reach

At Ozboz, we're not just about consultancy – we're about creating a broader impact. That's why we're excited to expand our brand through merchandise and mental health initiatives. Ozboz are introducing a fun clothing line designed for everyday use, offering items that reflect the entrepreneurial and creative spirit.

As part of our merchandise expansion, we're also proud to launch Blu Bear – a specialised offshoot brand focused on men's mental health. Blu Bear merges vintage-inspired clothing with innovative wearable technology, such as discreet patches integrated into the apparel. These patches connect wearers to an online platform offering resources and support for mental health issues.

By combining style and purpose, Blu Bear aims to break the stigma around mental health while providing practical and meaningful assistance to those in need. Together, these initiatives embody the Ozboz ethos: creating products and services that inspire, support and make a difference.

Ozboz founders Dan and Iain are experienced SME owners

from a corporate background, so they've all done the hard yards.

Our mission is simple: to empower businesses to overcome obstacles and achieve sustainable growth. Based in the UK, we combine strategic expertise with a personal touch, ensuring that every client receives tailored solutions that align with their unique goals and aspirations.
