Key Features

Rotating Bed Surface:

Entire bed surface rotates smoothly to support safe and independent transfers.

Backrest & Footrest:

Adjustable backrest (0°-70°) and legrest (0°-30°) for personalized comfort

Height Adjustment:

Electrically adjustable from 13"-25" for ease of access and caregiver support.

Trendelenburg:

Trendelenburg & Reverse Trendelenburg up to 7° for therapeutic positioning.

Independence Support:

Folding leg design engages core muscles, helping patients stand more independently.

Pain Management:

Adjustable positions help reduce pressure points and ease discomfort.

Everyday Comfort:

Multiple reclining options for reading, watching TV, or sleeping at the right angle.

Reduced Strain:

Makes transfers easier and safer, reducing physical demands on caregivers.

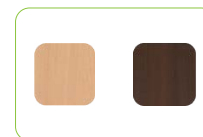

Design Options:

Available in Beech, Walnut, and Oak finishes to suit home or care facility décor.

Head/Footboard Colours

Beech Walnut
