

repose[®]

repose mattress overlay
& cushion, now with a
2 year warranty and
increased weight limit.*

Durable

Increased weight limit of 222kg* makes Repose products even suitable for larger patients. The new two year warranty is supported by clinical evidence of prolonged use.¹

Smart

Smart valve technology provides reassurance that Repose products are always inflated to the optimum pressure and never over inflated.

Multi-patient Use

Repose can be cleaned and reused for multi-patient use, increasing the lifetime of the product.

Cost Effective

Multi-patient use and an increased warranty to two years, provides cost-effective pressure area care.

Comfortable

Silent and unobtrusive, Repose mattress overlays and cushions are breathable and with no hard edges, increasing patient comfort and preventing tissue damage from occurring.

Support

Dedicated sales and clinical support ensure you and your patients will be supported every step of the way.

now with a two
year warranty

increased weight
limit 222kg*
*Mattress Overlay Only

Simple and effective

The Repose range adopts the most natural and effective method of pressure relief and redistribution by reducing the pressure exerted at the interface between the patient and the supporting surface.

This is achieved by immersion, maximising the contact surface area and redistributing pressure without compromising surrounding tissue.

Prevention and treatment

Repose cushion and mattress overlays are suitable for patients at all levels of risk including those at very high risk of developing a pressure injury.

✓ **VERY HIGH RISK**

✓ **HIGH RISK**

✓ **AT RISK**

Repose® is suitable for patients **AT RISK** to **VERY HIGH RISK**

Repose products can also be used for patients with existing pressure damage and providing treatment of grade 1 and 2 pressure ulcers.

Clinical efficacy

Repose is an in-expensive system with demonstrable clinical efficacy, supported with 20 years of clinical evidence.

The most recent study using the Repose mattress overlay, demonstrated that when used in combination with a high specification foam mattress there was a reduction in pressure ulcer incidence when compared to only using a high specification foam mattress (5.2% vs 22.2%).²

Repose Cushion & Pump

L 450m x W 450mm
Weight Limit: 139kg

Order Code: 6201100
