Trendelenburg Position

The Trendelenburg position, available on the LC-107, LC-108, VivaLift Ultra, Atlas Plus 2 and Radiance lift recliners, elevates one's feet higher than his or her head for increased comfort and relaxation.

Zero Gravity Position

The Zero Gravity position, which can be achieved on infinite position Pride Lift Chair models, positions one's thighs and lower legs higher than his or her torso. The VivaLift! Ultra offers a really comfortable zero-gravity sensation while distributing weight and pressure uniformly throughout the body.
