# Autopsy rooms, morgue & laboratory equipment

MATACHANA carries out complete equipment projects for autopsy rooms in hospitals, funeral parlours and forensic medicine buildings. We apply our wide experience to every project, implementing comprehensive solutions for autopsy rooms and morgues, areas which must be completely aseptic and hygienic at all times and kept strictly controlled and organized.

Our portfolio includes a full line of products for equipping different areas such as dissecting, necropsy and mortuary, as well as lab furniture and transport carts.

- |   |   |    |  |
|---|---|----|--|
| 1 | Lifting and transport systems             | 6  | Lighting and video systems   |
| 2 | Walk-in refrigerator systems              | 7  | Autopsy tables   |
| 3 | Mortuary refrigeration and freezing units | 8  | Grossing stations /Cutting tables                                    |
| 4 | Corpse washing area                       | 9  | Stainless steel furniture  |
| 5 | Forensic anthropology                     | 10 | Equipment for washing, disinfection and sterilization of instruments |

## Heat sterilizer system for bio-contaminated effluents

In addition, as manufacturers of steam sterilizers, we provide devices and solutions for the treatment of bio-contaminated waste effluents produced in all those areas. Unlike the chemical disinfection equipment, chemical residues are not generated by the steam sterilization. Therefore, it does not arise environmental problems. It is simple, clean (only steam is used) quick and effective, as it eliminates all pathogens capable of generating human infections.

## Mortuary refrigerators and deep freezing units

MATACHANA provides the best solutions for corpse storage and preservation needs with our Refrigeration Units and Walk-in Refrigerator Systems. We also offer the possibility to execute customized projects with top quality materials.

Complete range in preservation/  
freezing chambers for standard  
and obese bodies, with all possible  
configurations.  
Capacities from 2 to 20 bodies, and  
possibility of a tailored-made study.

## Equipment for autopsy rooms

MATACHANA designs, projects, manufactures and equips any facility for the most advanced and fully equipped mortuary, laboratory or autopsy room.

Our long experience handling and working stainless steel for over 50 years, allows us to provide a wide range of dissection and cutting tables, laboratory furniture and other elements entirely manufactured in stainless steel.

## Autopsy tables

MATACHANA dissection tables can be configured under the following variations: fixed & adjustable height, rotating with fixed and adjustable height.

Each device can be customized with the following list of options: aspiration, waster, mixer for hot/cold water, extensible showers, electric sockets, water exhauster, irrigation systems; and accessories, including instrument trays, organ table, body holders, neckrest holders, scales, etc.

## Innovation is the way forward

Since the company's foundation more than 50 years ago, our mission has been to provide the best service, bringing our knowledge and field experience to our customers to facilitate their daily work, allowing them to be efficient in the production whereas keeping rigorously the quality.

MATACHANA has a worldwide presence, with offices based in Spain, France, Germany, Italy, United States, Argentina, Malaysia and China, or through its distributors in over 110 countries.

In MATACHANA we are aware that Training and Service contribute decisively to achieve customer satisfaction. For this reason, we have always invested in the development of these two areas of activity, which enables a direct contact with customers and help us to develop together a continuous improvement process.

### Technical Engineering Support

An assistance provided by engineers, highly skilled expert technicians and support staff, all committed to ensure the proper equipment operation and condition.

### MIEC, training center

As we feel seriously committed and liable for achieving the optimum operation from the MATACHANA equipment, we invest in the training of future users, proposing a service of educational courses to all our customers on a regular basis and in the 5 continents.

### Environmentally friendly

The devices are designed and manufactured using the latest technologies on the market to achieve the best results in terms of energy savings and reduction in water consumption. Our Production Center located in Castelldefels (Barcelona) complies with the ISO 14001 Environmental Management System and ISO 50001 Energy Management.

### Quality

The MATACHANA devices are developed, manufactured and tested within a strict quality control according to the international Standards ISO 9001 and EN ISO 13485 for the quality management of medical devices.
