# OERCOLORADO
Open Educational Resources
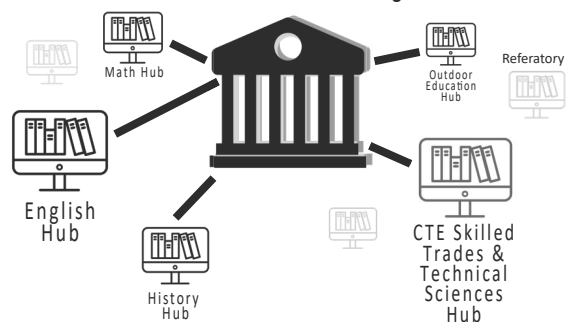

Colorado Learns with Shared Knowledge

We are: An openly licensed digital library of free curriculum and educational resources for Colorado's PK-12 education community.

On our sites, you can: • Explore • Search • Save • Use • Connect • Retain • Reuse • Revise • Remix • Redistribute • Create • Share • Learn • Discuss • Collaborate • Tag • Adapt • Contribute

Two sites, one goal: To bring quality open educational resources to Colorado's PK-12 teachers

OERColorado Hub on OERCommons:
www.oercommons.org/hubs/oercolorado

Utah · Oregon · OERCommons.org · OpenStax · **OERColorado Hub**

OERColorado Stand Alone State Microsite:
www.oercolorado.org

Math Hub · Outdoor Education Hub · Referatory · English Hub · History Hub · CTE Skilled Trades & Technical Sciences Hub

- Access to thousands of digital curriculum resources housed on the OERCommons library.
- Search and download content for free.
- To save, collaborate, and share: create a free user profile using any email of your choice.
- To join the OERColorado Hub, request to join the "Welcome to OERColorado" group.
- Join available groups or request to create one.
- Collaborate with both educational and non-educational partners in groups.
- Access and groups available to homeschool, microschools, higher education, private and religious schools.
- Create and share OER with the OERColorado Hub and OER Commons using Open Author and other OER creations tools.

- Extensive "Made in Colorado"and Colorado focused and selected OER resources. Join the "Curriculum Brigade" to help make OER!
- Access to OER Commons content from the Hub
- Search and download content for free.
- To save, collaborate, and share: create a free user profile using your public school district email.
- Join available groups or request to create one.
- Collaborate with public educational PK-12 partners.
- Profile access and groups available to vetted educational partners.
- Create and share to contribute to "Made in Colorado" collections using Open Author and other OER creations tools.
- Collections organized into content hubs, CTE hubs and speciality hubs. Plus a Referatory of free to use, but not quite OER resources.

OER means: Open Educational Resources. These are education materials in the public domain or with creative commons (CC) licensing. There are six creative commons licenses shown from least to most restrictive.

 PUBLIC DOMAIN

CC0 (CC Zero) Creator gives up copyright. Works are in the public domain. No conditions are attached. Some historical documents fall into this category.

CC BY Users may distribute, remix, adapt, and derive other works. Attribution is given to the original creator. Commercial use allowed.

CC BY-SA Users may distribute, remix, adapt, and derive other works. Attribution is given to the original creator. Commercial use allowed. Modifications under original license

CC BY-NC Users may distribute, remix, adapt, and derive other works. Attribution is given to the original creator. Non-commercial use only.

CC BY-NC-SA Users may distribute, remix, adapt, and derive other works. Attribution is given to the original creator. Non-commercial use only. Modifications under original license

CC BY-ND Users may copy and redistribute in orginal form only, no derivatives. Attribution is given to the original creator. Commercial use allowed.
