

Capability Statement

Strategic Executive Solutions in Partnership with ThynkEvoSol

Delivering ESG Consulting & Sustainable Solutions for Business and Government

Who We Are

Strategic Executive Solutions (SES), in partnership with **ThynkEvoSol**, provides end-to-end **Environmental, Social, and Governance (ESG) consulting and solutions** for organisations of all sizes. Together, we combine SES's proven expertise in strategy, governance, and managed services with ThynkEvoSol's innovation in environmental technologies and sustainable solutions.

Our ESG Office framework empowers organisations to align their business strategies with global sustainability standards while fostering resilience, transparency, and accountability across all operations.

Our Core Functions

1. ESG Internal Consultation & Guidance

- Embedding ESG into core business strategy.
- Providing cross-department consultation to ensure sustainability goals are achieved.
- Fostering a culture of responsibility and long-term resilience.

2. Ethical Sourcing

- Establishing and managing ethical sourcing practices for materials, products, and services.
- Evaluating suppliers for responsible practices and alignment with ESG values.
- Building partnerships with ethical suppliers to strengthen organisational integrity.

3. Supply Chain Risk Management

- Identifying and assessing environmental, social, and reputational risks within supply chains.
- Implementing mitigation measures to build resilience and ensure continuity.
- Supporting transparent and sustainable supply chain ecosystems.

4. Safety and Security of People

- Overseeing occupational health, safety, and wellbeing initiatives.
- Creating secure and supportive work environments.
- Promoting social welfare and community responsibility in operational practices.

5. Compliance & Regulatory Alignment

- Ensuring compliance with regional, national, and international ESG standards.
- Monitoring and adapting to changing labour, human rights, and environmental regulations.
- Maintaining auditable processes to demonstrate accountability and transparency.

Our People Advantage – Thynk People

Working alongside SES and ThynkEvoSol, **Thynk People** ensures that organisations have the right leadership talent in place. From executive placements to **C-level ESG leadership**, we provide the human capital needed to deliver and sustain ESG transformation.

Why Choose Us

- ✓ **End-to-End ESG Services:** From consultation to implementation and compliance.
- ✓ **Cross-Sector Expertise:** Scalable solutions for both public and private sectors.
- ✓ **Global Standards, Local Relevance:** Aligned with ISO standards, Essential Eight, PSPF, and ESG benchmarks.
- ✓ **People and Technology Integration:** Combining strategic advisory with workforce solutions and sustainable technology.

Our Commitment

At SES and ThynkEvoSol, we believe sustainability is not just a concept, it is the guiding principle that shapes every initiative. Our mission is to help organisations embed ESG practices into their operations, ensuring that progress today does not come at the expense of tomorrow.
