Class Description:

This class will work on basic phonetics that lead to good reading skills. The class is designed for younger kids but I welcome any kid who is struggling...good phonetic foundations are the building blocks for reading success! We will focus on blends, digraphs, vowel teams/diphthongs. If we are moving fast we may get to R-controlled vowels, and odd phonetic rules. We will use memorization using hand gestures, repetition, game play, and sentence pyramids to conquer reading! NOTE: The below weeks are a mere outline. I will only progress as long as I feel that the majority of the class understands the concept.
