

Class Title: HCU Carpentry 2.0 Advanced

Subjects Covered: Elective

Teacher Name: Ryan Velina

Class Day: Wednesday

Location: 130 Christie St., Lexington, SC, 29072

Time of Day: 9:00am - 12:00pm (3 hour class)

Class Size: 12

Class Cost: \$325

Class Fee: \$96

Ages or color group served: Orange and Red

What level is this class: Level 3

Prerequisites:

Ability to register for the Spring 2027 semester will be based on the competency test results from throughout the Fall 2026 semester. In addition to the competency test scores the class registration is still first come- first serve. Students will be moved from the waitlist as spaces open up, in the order they were added to the waitlist. All students will need to already have a basic understanding of carpentry and foundational woodworking skills.

Must be in 6th grade or above

Please be advised that we have a no refund policy. Once the semester starts, the supplies will be purchased for the class. There are no prorates of any kind, for any exception, for any reason. Please consider this policy before registering your student.

Students must be able to follow instructions the first time around. This is not a class where we can continue to repeat ourselves especially considering the safety implications. Any student found not listening or horseplaying will be removed from class.

Additionally, this will not be a class where we can accommodate any severe learning disabilities. We apologize in advance.

All parents will need to sign a safety waiver before the first day.

Graduation Requirements:

Project completions are required for all projects.

Must adhere to HCU attendance policy. All students must be present in 75% of class. Only 3 absences are allowed per semester. There will be no additional sick days allowed.

Homework Requirements: Expect weekly homework.

Class Description:

Next semester, this class will be exclusively for our current Carpentry students! We will not be accepting new students because the next level will be Carpentry 2.0 — Advanced! 🤗🔧

Because we are moving into more advanced projects, all students will need to already have a basic understanding of carpentry and foundational woodworking skills.

Students will be taking those skills to the next level by working on projects such as:

🪑 Patio chairs

-  Lawn chairs
-  Foldable chairs
-  Picnic tables
-  Coffee tables
-  Shelving
-  Potentially cabinets and other indoor furniture
