Class Description:

This fun, interactive introduction to music will give young students an opportunity to explore the building blocks of music while developing an appreciation for a variety of musical styles, instruments, and composers. Through listening activities, movement, singing, rhythm games, simple instruments, and hands-on activities, students will discover that music is all around us and learn how to listen to it in new ways.

The class will introduce basic musical concepts such as beat, rhythm, tempo, dynamics, melody, pitch, and musical patterns. Students will also learn to recognize and explore different families of instruments and become familiar with music from a variety of cultures, historical periods, and composers.

Each week will include age-appropriate listening and participation activities designed to encourage curiosity, creativity, and confidence. No previous musical experience is required.

By the end of the course, students will:

- * Understand basic musical concepts including beat, rhythm, tempo, dynamics, and pitch.
- * Recognize and describe a variety of instruments and instrument families.
 - * Develop active listening skills and the ability to respond to music.
 - * Be introduced to notable composers and diverse musical traditions.
- * Explore music through singing, movement, rhythm, and simple instruments.
 - * Gain confidence creating and performing simple musical patterns.
 - * Develop a lifelong curiosity and appreciation for music.
