**Class Description:**

Conspiracy theories are all about critical thinking! Is the truth really what they say it is or is there more to the story?? Remember, there are 3 sides to every story. Your side, my side, and the truth. With that, many of us are only told one side in which they say is "truth" but is it really? We will dive deep into so many topics. This will be a student lead class as they will pick the topics. I am so excited to see what these kids find!
