**Class Description:**

Get Your Child Ready to Thrive in Our AH-mazing Green Classes!

This Green Readiness class is designed specifically for our 4-5 year olds to build essential core skills that will help them succeed in future project-based and hands-on green classes. We'll explore vowels, counting to 20, color sorting, and more—but the heart of this class is how we learn, not just what we learn.

In addition to academic foundations, students will practice classroom skills like group table manners, using scissors and glue responsibly, following multi-step directions with our "listening ears," cooperating with classmates, and understanding classroom expectations—setting them up for success in our older classes.

Some activities will rotate to provide comforting repetition, while others will be brand-new surprises to keep engagement high and curiosity sparked!

Please note: The class supply fee is larger because—we're doing ALL THE THINGS!  
Buttons, bugs, and beads, oh my!

Students will come home with helpful resources to continue practicing vowel letters, numbers 0-20, object sorting, and more at home.
