## **Class Description:**

Seed Air-Clay Mosaic Art is a hands-on creative class designed especially for young learners. Students will create textured artwork using air-dry clay and natural materials such as beans, lentils, seeds, and peas. Each week students will complete a themed art piece while learning foundational art skills in an encouraging, low-pressure environment.

This class focuses on creativity, patience, and confidence building. Students will work with their hands to roll clay, press designs, create patterns, paint, and seal finished artwork. Projects are age-appropriate and structured so every child can be successful regardless of artistic experience.

Students will leave the semester with multiple completed keepsake art pieces they can proudly display at home.

All materials are provided.
