OUR MISSION

It is the mission of Rob Constantine Recovery Community and Outreach Center to provide and promote peer based recovery supports and services that empower individuals and families to lead healthy, joyful lives in sustained long term recovery. Our vision is ongoing recovery support and awareness for all.

24 Hour Peer Support

HOW CAN WE HELP YOU WITH YOUR RECOVERY?

RECOVERY CENTER

Our focus is to aid individuals and their families to improve health, wellness, and sustain long term recovery by providing a meeting location, support groups, sober social and recreational activities, and referrals for area services. We provide peer-driven and peer-delivered support services.

PEER ENGAGEMENT SPECIALIST & RECOVERY COACHES (CRPA)

Our Peers use their own experience with substance use disorder (SUD) and recovery to be resources for others. They know where to find help and how to effectively engage with individuals who are seeking their own pathway to recovery. They provide information and education regarding SUD and recovery, assist with goal planning, and support individuals with accessing treatment and other services.

FAMILY SUPPORT NAVIGATOR

The Family Support Navigator utilizes their own family recovery expertise to engage with those who have, or have lost, a loved one with a substance use disorder (SUD). They assist with navigating barriers to treatment services. They provide information and education about SUD and recovery, and help friends and family members connect to support services.

OPIOID OVERDOSE PREVENTION

We train community members, professionals, peers and their families on how to recognize, respond, and give naloxone (Narcan) to prevent an opioid overdose from being fatal.
