Use with Trex Hideaway® Hidden Fastening System for a clean, screw-free appearance.

Trex SunComfortable™ Technology redefines what performance looks like in the heat. Our heat-mitigating\* decking is engineered to reflect solar energy and reduce heat absorption, keeping deck surfaces cooler\* versus standard composite decking.

\*Trex SunComfortable™ decking stays cooler than our original boards, but like all decking, it will get hot in direct sun, especially darker colors. Care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

WILDLAND URBAN INTERFACE  
WUI COMPLIANT  
CSFM-12-7A-4

IGNITION RESISTANT  
IWWIC COMPLIANT  
ASTM E2768

Boards with these symbols are Wildland Urban Interface (WUI) compliant, making them an excellent option for areas prone to wildfires.

Trex Refuge PVC decking is engineered for ignition resistance with a Class A Flame Spread Rating, giving homeowners added confidence when it matters most.
