GET ORGANIZED

EACH MONTH: STEP CLOSER TO LESS CLUTTER

Organization in our life is often a goal, but it can be overwhelming! Each month we will suggest one item to go through and toss in your home. Hopefully by working in small categories, it will help you on your journey to a less clutter. It shouldn't take long, and if you are inspired to do more, let us know how we can help

THIS MONTH: Spices

Not everyone abides by the expiration dates on spices, and while they won't necessarily go bad, they certainly lose their potency. If you don't cook often, most likely you need to cull your collection. When replacing them, buy smaller bottles of those you don't use often. To stay really organized, move the spices to a drawer where they can be displayed on an angle with a drawer insert. They won't get lost in a deep cabinet where you have to sort through each time you need to find a specific spice. It is easy to alphabetize them for quick access as well.
