

PRODUCT DESCRIPTION

Concrete Fusion is a revolutionary product for fusing concrete.

Concrete Fusion is a replacement for water, creating a mixture that can be easily poured or troweled.

Concrete Fusion sets within hours for tire or foot traffic, and fully cures within 24 hours.

Concrete Fusion is certified to densify.

Concrete Fusion creates a concrete repair that is more durable and weather resistant than the original concrete.

Concrete Fusion accepts dyes and stains to create a homogeneous appearance with the original concrete.
