

Attorney General Paxton,

Our great state has had to deal with the physical brunt of the border crisis. Since the Biden Administration took office, Texas has been ground zero for illegal immigrants of over 150+ countries to flood over our sovereign state border. Our law enforcement and Border Patrol agents were already overwhelmed with the over 2 million encounters last year. We have just reached over 1 million for the current fiscal year so far. There is no way to truly assess how many “got aways” there have been. When Title 42 is lifted, hundreds of thousands are reportedly ready to cross, with the potential for millions more to follow. Drugs are pouring into every Texas city at alarming rates. Fentanyl and other deadly drug overdoses are skyrocketing, particularly amongst our youth.

The time is now for Texas to take a bold stand. As your constituent, I am strongly urging you to write an official opinion defining that the state of Texas is under an active invasion. Texas cannot depend on the federal government to defend Texans from the very attack the Biden Administration has invited. Providing your legal opinion will allow Texas far more constitutionally legal means by which we can defend our citizens and the sovereign state of Texas. Thank you!

For Texas!
