ROBERT H. SMITH SCHOOL OF BUSINESS

We're grateful for our continued partnership with University of Maryland and the Ed Snider Center. We look forward to more collaborations and welcome Jacqueline Manger's participation today.

Jacqueline Manger, MBA

Managing Director,
Ed Snider Center for Enterprise and Markets
Faculty, Executive MBA and Smith Business
Leadership Fellows programs
MBA, University of Maryland

Jacqueline Manger joined the Ed Snider Center in 2018 as an executive fellow. She became managing director in 2020. Working closely with the center's founding director, she is focused on expanding the center's impact and is responsible for leading center activities and program operations. Manger is passionate about the role that free markets play in society allowing for individuals to lead purpose-driven careers and lives of their own creation. She is an instructor of entrepreneurship and purposeful leadership, inspiring students from pre-college undergraduates to executive MBAs to embrace lean startup principles and work with intention and purpose to solve problems meaningful to themselves and make their world a better place. Her research activities include multiple applied research projects examining entrepreneurial strategy, decision making in early stage ventures and innovation and tech transfer.

Before joining the center, Manger was CEO of Sacramento-based consumer fintech startup New Wallet. During this time she began instructing undergraduates and taught the Lean Canvas in the center's SELF program. Prior to her startup experience Manger spent 20 years in the investment management industry including growing two firms alongside their founders. She held CFO, COO and CCO roles with hedge fund manager West Creek Capital and private family office Rockport Capital. She began her investment career on the equity trading desk at New York-based hedge fund Caxton Corporation.

Manger's first career was in the performing arts where she found success as an actress on stage and in commercials and as a director/choreographer. Currently an active arts advocate, she serves on the board of Olney Theater Center, Maryland's official state summer theater, and was a past chair and board member of the Arts and Humanities Council of Montgomery County. She was recently appointed by the Montgomery county executive to the MidCounty Citizens Advisory Board. A proud TERP, Manger received an MBA from UMD's Robert H. Smith School of Business, a BS in economics from Virginia Commonwealth University and an accounting certificate from University of Maryland University College. While an executive MBA she was recognized by Poets and Quants Best EMBA's and received the Martin Sullivan Exemplary EMBA Award in recognition of excellence in scholarship, leadership, and character.

PANEL 1: Identification & Piloting: AI, Intelligent Automation & Digital Transformation

MODERATOR

Mike Jerabek - Chief Delivery & Strategy Officer, JOS Group LLC

Michael Jerabek is a distinguished leader with over two decades of successful government service. A strategic thinker and proven manager, he excels at building high-performing teams, fostering collaboration, and driving transformative initiatives. Passionate about empowering others and cultivating positive, innovative cultures, Michael has extensive experience overseeing the full lifecycle development, deployment, and sustainment of critical cyber and national security systems while ensuring stringent security compliance.

Recognized for his exceptional communication abilities and adept decision-making skills, Michael leverages strong interpersonal acumen to forge productive relationships across diverse groups. He is deeply committed to promoting diversity, equality, and inclusiveness within the organizations he has led.

Michael holds dual Bachelor's degrees in Cyber and Information Security, and Telecommunications Engineering Technology from Capitol Technology University. A decorated U.S. Army Veteran, he has received numerous accolades, including the DoD's prestigious Dilke-Allen Team Award and multiple honors for outstanding performance and humanitarian service. A dynamic professional dedicated to operational excellence; Michael delivers impactful solutions that drive organizational success within every partnership he supports.

When he is not busy working, Michael enjoys spending time with his 2 children, reading, cooking, watching the Chicago Cubs, and exploring all the fun historic sites in and around Maryland.

Captain Brian C. Erickson P.E. - Deputy Director, DHS Presidential Transition Office, U.S. Coast Guard

Captain Brian Erickson currently serves as the Deputy Director of the Dept of Homeland Security Presidential Transition Office. He was the United States Coast Guard's first Chief Data & Artificial Intelligence Officer (CDAO) where he was principally responsible for the coordination of data and Artificial Intelligence activities across the organization. His previous military assignments focus primarily in engineering and operations, serving at five operational units flying HH-65 Dolphin helicopters and HC-130H fixed wing aircraft performing search and rescue, law enforcement & other military mission profiles. He is a licensed Professional Engineer specializing in aerospace and also served in the Office of Budget and Programs working directly for the Chief Financial Officer (CFO). In 2020, he was selected as the Coast Guard's MIT Sloan Fellow following service as Commanding Officer of Coast Guard Air Station Savannah, GA. He is a 1998 graduate of the U.S. Coast Guard Academy, he holds a Master of Science degree in Aeronautics and Astronautics from Purdue University and a Master of Business Administration from Massachusetts Institute of Technology. He has been appointed to the CDO Magazine Global Editorial Board and has been named as a 2022 and 2024 DataIQ top 100 most influential persons in data and the 2023 MachineCon AI Leader of the Year.

Kristin Switzer - Senior Advisor to the Chief Data Officer, Consumer Financial Protection Bureau

Kristin Switzer is the Senior Advisor to the Chief Data Officer at the Consumer Financial Protection Bureau, where she facilitates collaboration across the Bureau's business components to lead and operationalize the agency's Enterprise Data Strategy, a shared agenda for the Bureau to better leverage data to achieve its mission. In addition to providing guidance and counsel to the CDO and members of the Office of the Chief Data Officer leadership team, Kristin oversees strategic planning, budget and procurement, metrics, stakeholder communications and engagement, and serves as the gatekeeper to OCDO for internal and external partners.

Including several years at the U.S. Department of Justice, Kristin's career in the federal government and private sector, and her experience working at the intersection of business, operations, policy, technology, and data, spans over 17 years. Since joining the Bureau in 2013, Kristin has served on numerous rule writing teams, was instrumental in establishing the Bureau's Regulatory Implementation & Guidance function, developed the Concept of Operations and inaugural roadmap that laid the foundation for the establishment of the OCDO, and led a major reg tech initiative, which earned her the Bureau's highest honor, the Director's Mission Achievement Award. Kristin earned a Bachelor's degree in Law and Society and Women's Studies from Purdue University and recently completed an executive education course on artificial intelligence at the Massachusetts Institute of Technology.

2:30PM: PANEL 2: Business Innovation, Strategy & Acquisition

MODERATOR

**Dr. Prince Baawuah, Lead Healthcare Subject Matter Expert (SME),
Content Creator & Trainer, JOS Group LLC (former CMS)**

Dr. Prince Baawuah, DrPH, MPH, CSM®, is a healthcare leader and industry educator with deep expertise in Medicare Advantage Risk Adjustment and Encounter Data. As a lead healthcare subject matter expert, content developer and trainer at JOS Group LLC and the Founder of HEALS Academy, he has been instrumental in advancing Medicare Advantage and Part D data training at the Centers for Medicare & Medicaid Services (CMS) and the industry. With a Doctorate in Public Health from Johns Hopkins and a Master of Public Health from the University of Michigan, Dr. Baawuah blends academic excellence with practical experience.

During his tenure at CMS, Dr. Baawuah played a key role in the operationalization of Medicare Advantage Encounter Data, managing critical contracts like the Encounter Data Dashboard & Analytics (EDDA) and Risk Adjustment Payment Validation. His expertise in procurement and contract management was crucial in aligning these projects with CMS's strategic goals. His innovative contributions earned him the FedHealthIT Innovation Award in 2018 and the CMS Honors Innovative Award in 2020. As a moderator for the Business Innovation, Strategy, and Acquisition session at Engage FedGov, Dr. Baawuah brings unparalleled insights into data-driven strategies and federal contracting.

Leonard Grant - Head of Contracting Activity;

Director, Office of Acquisitions and Grants Services, U.S. Food and Drug Administration

Leonard Grant serves as the FDA's Head of Contracting Activity (HCA) and Director of the Office of Acquisitions and Grants Services. In this capacity, he has overall management and oversight of an office responsible for awarding contracts, grants, and purchase card actions totaling approximately \$2.11 billion annually. He also oversees the Acquisition Career Management Program.

Leonard began his civil service career in 1991 as a Contract Specialist. Over his 33 years of federal service, he has held various leadership positions and is now a member of the Senior Executive Service (SES). Leonard serves on the Federal Acquisition Regulation (FAR) Technology Team, a workgroup under the Civilian Agency Acquisition Council (CAAC), which assists with updates and revisions to the FAR.

Additionally, Leonard served as a Commissioned Officer in the United States Army Reserves, retiring at the rank of Lieutenant Colonel after 30 years of service. He held various leadership positions during his military career and was deployed twice. Leonard's dedication to service has earned him numerous awards and military decorations. He is married and has three children. The family resides in Derwood, Maryland.

**Polly Hall, Senior Advisor to the Chief Procurement Officer,
U.S. Department of Homeland Security**

Polly Hall serves as the Senior Advisor to the Chief Procurement Officer at the Department of Homeland Security. In this capacity, she supports priority procurement matters, strategic planning, and execution of procurement functions and fosters process improvement and modernization initiatives across the DHS procurement organization. Prior to this role, she served as Executive Director for the DHS Procurement Innovation Lab (PIL) and as the DHS

Acquisition Innovation Advocate.

Polly earned her B.A. in Political Science at Roanoke College and her M.A. in Public Policy at the George Washington University.

Polly is FAC-C Level III certified with a Digital Service (DS) specialization. She was recognized with a Federal 100 Award in 2019 and with Top 50 Agile distinction in 2020. She serves on the Board of the Federal Innovation Council and the DHS Center for Accelerating Operational Efficiencies, and as a faculty instructor in the Supply Chain Management Department at the W.P. Carey School of Business at Arizona State University.

Speaker Biographies

Tarrazzia Martin, Digital Transformation Strategist and Serial Entrepreneur, Department of Housing and Urban Development (HUD)

Tarrazzia Martin, dubbed the "Government Transformation Queen" by Federal Computer Week, is a senior executive and seasoned entrepreneur with over two decades of diverse leadership in technology across various sectors. As a recognized authority in government practices, Ms. Martin excels in digital strategies, strategic planning, and public policy, with a deep understanding of leveraging technology for cybersecurity, risk management, and security operations to achieve measurable outcomes.

Her tenure in federal roles includes Strategic Advisor for Technology Planning at HUD, where she spearheaded cost analysis initiatives, and various strategic and operational capacities within the ODNI and CIA, enhancing the IC's technology and mission capabilities. Notably, Ms. Martin directed the Business Transformation Office, aligning IC functions like Financial Management and HR, and served as the first CIO at USCIS, transforming the immigration system with modern tech frameworks.

Additionally, her leadership extended to DHS where she was Deputy Director of Infrastructure Operations, and at the Department of Treasury, she managed network services essential for integrating 22 federal agencies.

In the private sector, Ms. Martin leads USNIA, offering innovative private policing and investigative services. She also founded USNIA-IIA, a modern training institute enhancing law enforcement and intelligence skills, and TAS Enterprises, providing strategic consulting and talent acquisition. Her commitment extends to community service through the New Utopia International Foundation, focusing on homelessness, prison ministry, and skill-building.

Jamala Peyton - Executive Director, Office of Small and Disadvantaged Business Utilization, Office of the Secretary, US Department of Commerce

Mrs. Jamala Peyton joined the Department as the new Executive Director of OSDBU on January 29, 2024. As equity in federal procurement is a priority, she has an important role in increasing the Department's contract awards for U.S. small and small, disadvantaged businesses.

Ms. Peyton brings over 26 years of federal procurement experience and joined the Department after serving as the Deputy Director of Operations for the U.S. Agency for International Development's (USAID) OSDBU. As the Deputy Director, she achieved USAID's highest small business score on the Small Business Administration (SBA) procurement scorecard. She joined USAID's OSDBU after serving 11 years as a senior contracting official for USAID's Office of Acquisition and Assistance (OAA) Washington and Foreign Service Operations. She also served eight years as an OAA Office Director in the Foreign Service for USAID Missions in West Africa, Europe and Eurasia, and the Latin American and Caribbean regions. In these roles she led USAID missions to increase its contracting with U.S. small businesses for sustainable programmatic results and to help grow the U.S. economy through small business partnerships.

She also served as the Director for the Department of Homeland Security's (DHS) Office of Health Affairs Acquisition Division where she led the acquisition workforce in support of the Department's medical and health security component. She also served as DHS's Associate Director for Science and Technology Acquisition Division leading various procurement efforts in research and development. Ms. Peyton began her career in acquisition at the National Aeronautics and Space Administration where she served as a contracting officer and advocate for small, disadvantaged businesses.

Ms. Peyton holds a Master of Business Administration and is a Federal Acquisition Certification in Contracting Professional (FAC-C P).

Speaker Biographies

Mitchell Winans, Head of Industry Partnerships, Acquisition Services Branch, Federal Deposit Insurance Corporation

Mitch Winans is Head of Industry Partnerships for the FDIC's Acquisition Services Branch. In this role, he leads external partnerships and outreach with the private sector, academia, and other organizations that support the contract portfolio of FDIC.

Prior to joining FDIC, Mitch was Senior Advisor in the Internal Revenue Service's first-ever Enterprise Digitalization Office, supporting digital transformation objectives for one of the world's largest financial institutions. In this role, he served as chief of staff and principal counselor to the Enterprise Digitalization Director and executive team, was responsible for designing and building a new digital organization, and led agency-wide modernization initiatives. During much of this role, Mitch was also dual-hatted and served as Senior Manager and Advisor for the IRS Deputy Commissioner for Operations Support, where Mitch managed a team responsible for tracking and supporting the agency's high-priority initiatives (including new Inflation Reduction Act of 2022 mandates), executive performance and correspondence, employee engagement, student programs, and other initiatives.

Prior to this role, Mitch was Head of Customer Experience and Strategic Planning in the IRS Office of the Chief Procurement Officer and was responsible for enhancing the procurement experience for internal and external stakeholders, managing strategic planning, and advising leadership on organizational development, technology and process improvements, and customer and employee engagement.

Before coming to the IRS, he was an Industry Liaison at the First Responder Network Authority (FirstNet) under the U.S. Department of Commerce and helped the newly formed agency establish its procurement organization and small business program. He's served in various roles at the U.S. Department of Homeland Security (DHS) and worked at the U.S. Chamber of Commerce Office of Congressional and Public Affairs.

Mitch received an MBA from the Johns Hopkins Carey Business School and a BA from the University of California, Irvine.

PANEL 3: Delivery, Program Management, Operations & Engagement

MODERATOR

Traci Walker, Executive Director, Digital Services Coalition

Traci Walker is a leader in digital government services, currently serving as Executive Director of the Digital Services Coalition. With over two decades of federal government experience, she has served as a contracting officer at the Executive Office of the President (White House) and the General Services Administration (GSA). As a founding member of the US Digital Service, Traci pioneered efforts to transform government procurement, co-authoring the TechFAR Handbook and spearheading the creation of the Digital IT Acquisition Professional (DITAP) program, which now has trained over 3000 contracting professionals. Alongside her work at the DSC, Traci recently launched Awkward Walker Consulting LLC to push forward change in government acquisition and digital services—because sometimes, being a little awkward is exactly what's needed.

Anita Allen, Small Business Specialist, HHS/CMS & NIH

Anita has over 35 years of Government Service. She served as a Contract Specialist (CS) and Contracting Officer (CO) at USDA Agriculture Research Service and Social Security Administration for almost 18 years. She joined HHS as a Small Business Specialist in 2007 and currently supports the Centers for Medicare and Medicaid Services (CMS) and the National Institute on Drug Abuse (NIDA) at National Institute of Health (NIH). She also supported HRSA, PSC/OAMS, NIH NHLBI and FDA during her 17 years at HHS.

Donald Bauer, Chief Technology Officer, Global Talent Management (HR), U.S. Department of State

U.S. Department of State Donald Bauer is a Federal Senior Executive serving as Chief Technology Officer for Global Talent Management (HR) at the Department of State. Don is a former Navy Chief and Surface Warfare Officer. A Computer Scientist by trade, Don has spent the last 25 years developing software for the government including an emergency de-orbit program for the space shuttle and satellite automation for NASA and other government's space agencies.

In 1999 he co-founded QuickHire, the first commercial on-line job system for the Federal Government which was subsequently acquired by Monster.com in 2003. In 2006 he transitioned to a federal employee with US Customs and Border Protection leading a team to implement HR case management and led the technology efforts to hire over 5000 border patrol agents in 2007.

(continued to next page -->)

Speaker Biographies

Donald Bauer (cont'd) In 2010, he served as Enterprise Technical Operations Director at DHS HQ under the Chief Human Capital Officer, responsible for Information Assurance, 508 compliance (accessibility) and Information Technology Acquisition Review (ITAR). Don left Federal service in 2011 and served in the private sector implementing Freedom of Information Act (FOIA) Systems, providing Senior HR Advisor contracting, conducting HR IT Assessments, and providing Program management for enterprise HR platform implementations.

Don joined the Department of State in September 2016 as Systems Oversight Division Chief, moved to Systems Development Division Chief in May of 2017, and was promoted to the newly created CTO position in March 2020. He is the investment manager for Global Talent Management, manages an IT budget of ~\$60M, and leads a team of 330 professionals maintaining two ERP platforms and a suite of 70 applications in service of the State Department's 78,000 employees domestic and abroad. Don is currently engaged in a multi-year modernization effort with heavy emphasis on usability, user experience, cloud transition and cyber hygiene. Don lives in Manassas, VA and enjoys cooking, camping, collecting wine, 3D Printing, and hanging with his 7yr old grandson.

Jignesh Miyani, Founder, JOS Group LLC

Jignesh Miyani is a 25 plus years experienced strategic visionary driving digital transformation leveraging technology, data and analytics. He has been successful in hybrid, customer facing roles in Federal, State and Local, Health Care and Finance, aligning customer objectives using key technology differentiators focused on business outcomes. Some of the largest customers he has worked with include CMS, NIH, CDC, FDA, VA, OIG, DOJ, civilian and commercial clients and States. Jignesh has been a trusted advisor to these agencies creating business impacts, utilizing technology as enablers and driving innovation.

Data and Analytics is his passion. Jignesh brings a unique perspective to his new and existing customers looking at their challenges from a customer lens, providing strategic vision and talking data and AI in their language resulting in successful outcomes. He strongly believes that the core behind any digital transformation is leveraging data and analytics using the right technology as an enabler driving the right business outcomes with the customer's need always in mind. It's always about what they want rather than what we think the customer would like.

David Park, National Account Manager - HHS + DOE, U.S. General Services Administration

David Park serves as the National Account Manager for the Department of Health and Human Services, the Department of Energy, and the Environmental Protection Agency. Prior to assuming his current position in the Federal Acquisition Service, Mr. Park worked in GSA's Public Buildings Service as a: Supervisor Realty Specialist, National Account Manager, and Building Manager. He has over 22 years of Federal service, and all of it has been with GSA. Mr. Park holds a Bachelor of Science degree in Information Technology and Finance from the University of Maryland at College Park.

Harrison Smith - Acquisition Innovation Advocate, Federal Deposit Insurance Corporation

Harrison Smith has served the Federal Deposit Insurance Corporation as the Acquisition Innovation Advocate since November 2023, supporting the digital and acquisition portfolios of the agency. Previously, he was the Director of Enterprise Digitalization at the Internal Revenue Service, where he supported IRS efforts to modernize systems, simplify business processes, and empower taxpayers and IRS employees to rapidly resolve issues in a simplified digital environment.

Harrison also served the IRS as the Deputy Chief Procurement Officer, where he was responsible for supporting all acquisition programs, over \$2.6B in contract spend, and more than 12,000 contract actions per year for equipment, supplies, and services for IRS and Treasury Departmental Offices.

Before joining the IRS, Harrison served as the Industry Liaison for the Department of Homeland Security (DHS). In this role, he was responsible for providing leadership and direction for DHS office and outside officials for all aspects of the DHS industry engagement program. He also served as a principal advisor to the Chief Procurement Officer on matters relating to all aspects of procurement, particularly transformative approaches to leveraging technology to support the DHS mission. He was a warranted Contracting Officer for more than two decades at the Naval Sea Systems Command and various offices of DHS, where he supported major weapons systems programs, foreign military sales, research and development portfolios, and multi-billion dollar IT programs.

Harrison lives in Virginia with his wife and children. He holds a B.A. in International Relations and an M.A. in US Foreign Policy from the American University, an M.B.A. from George Washington University, and an Executive Certificate in Public Leadership from the Harvard Kennedy School.

Speaker Biographies

**Andrea D. Wilson, Chief, Business Operations Division,
National Oceanic & Atmospheric Administration (NOAA)**

Andrea D. Wilson is a seasoned acquisition professional with extensive experience in federal acquisition. She has served in key roles such as Contract Specialist, Contracting Officer, and Procurement Specialist. Andrea is recognized for her expertise in federal contract processes and methodologies, playing a critical role in major enterprise-wide acquisitions. She has successfully established multiple Blanket Purchase Agreements (BPAs) and Indefinite Delivery Indefinite Quantity (IDIQ) contracts, enhancing efficiency across government agencies like the CIA, DHS, CMS, and NOAA.

Andrea has been a featured speaker at prominent industry events, including the 2023 University of Maryland Project Management Symposium and the National Contract Management Association's World Congress and Government Contract Management Symposium. Her leadership and innovative contracting strategies have consistently earned her respect and numerous accolades within the federal acquisition community.

Andrea is committed to advancing the field of federal acquisition, continually seeking to implement innovative solutions and empower the contracting community.

PREMIER / NOTEBOOK/ HAPPY HOUR SPONSOR

We are an 8a SBA certified company, and have built a reputation over two decades as a trusted advisor to Federal, State and Local governments, as well as commercial clients. Our clients have benefited from our ability to look beyond the norm, provide thought leadership, and exercise innovation to maximize business outcomes.

LANYARD SPONSOR

We offer innovative technology solutions and build customer-centric services that are simple, intuitive, and usable across federal industries.

Our certified SAFe practitioners and trainers are globally recognized for their ability to support the transition of programs into Lean-Agile enterprises.

PICKLEBALL SPONSORS

At ExpediteInfoTech, we leverage our deep expertise in emerging technologies to solve complex IT challenges for federal, state, and local government agencies. Our hands-on approach and proven methodologies ensure sustainable and meaningful results. We work with clients to modernize systems, enhance security, and drive efficiency while aligning with their long-term strategic goals.

Infotrend partners with Federal agencies to solve business and technology challenges in Data, Modern Software Development, Digital Forensics, Emerging Technologies, and Enterprise Legal Management. Our expertise spans the entire Agile software development lifecycle - deploying timely solutions to solve complex issues encompassing program and project management, cyber security, operations and maintenance (DevOps), testing and technical support. We understand the tools, standards, and techniques required to reduce risk and increase efficiency. As a CMMI Level 3-rated and ISO 9001/20000-1/270001 certified Small Business with Top Secret Facility clearance and our own Digital Forensics Lab, we align our work to our customers' visions and partner with them on solving their most prominent challenges.

SILVER SPONSORS

CogniAI: A Joint Venture of Expertise in AI and Data Solutions

CogniAI is a dynamic Joint Venture between two powerhouse companies: **KS**

Technologies LLC, an SBA 8(a) certified firm specializing in Agile AI solutions, and

Fracsys Inc., a Woman-Owned Small Business (WOSB) and HubZone certified company known for its pioneering work in data and analytical solutions. This strategic partnership merges cutting-edge artificial intelligence capabilities with unparalleled data expertise to deliver transformative solutions to government clients.

At **KS Technologies**, agility and innovation are at the core of their AI offerings, helping organizations streamline operations, improve decision-making, and stay ahead of technological advancements. Meanwhile, **Fracsys** brings decades of experience in data science, advanced analytics, and cloud platforms, empowering clients to harness the power of their data for actionable insights. Together as **CogniAI**, the Joint Venture seamlessly integrates AI and data science to solve the most complex challenges faced by federal and state agencies.

CogniAI is committed to helping government agencies achieve mission-critical objectives by implementing intelligent, scalable, and secure AI-driven solutions. Whether it's improving operational efficiency, modernizing legacy systems, or making data more accessible and actionable, **CogniAI** is the trusted partner to drive innovation.

With a strong foundation in federal contracting and certifications that ensure compliance and eligibility across diverse government programs, **CogniAI** is poised to bring the next generation of AI and data solutions to the forefront of government operations. We're here to help agencies evolve into data-driven, AI-powered organizations, transforming not only how they work but the impact they deliver to citizens and communities.

ICF is a global consulting and technology services company with approximately 9,000 employees, but we are not your typical consultants. At ICF, business analysts and policy specialists work together with digital strategists, data scientists and creatives. We combine unmatched industry expertise with cutting-edge engagement capabilities to help organizations solve their most complex challenges. Since 1969, public and private sector clients have worked with ICF to navigate change and shape the future.

KBR is a premier science, technology, and engineering provider catering to federal and civil government clients around the world. As a leader in mission technology, KBR excels in applied technology and digital transformation. We deliver comprehensive mission operations support alongside AI-driven optimization and systems integration services. Perhaps best known for our 60+ years supporting NASA, KBR is recognized as a world-leading mission support organization that operates globally. We do this and so much more.

KBR's Government Solutions division advances the priorities of the federal government, military, and commercial entities. For decades, KBR has guided government and commercial agencies to success with innovative technological solutions and comprehensive support throughout entire mission lifecycles. Our highly trained, certified, and cleared workforce are the leading experts in their fields and deliver leading-edge, technology-driven solutions supporting federal civilian and defense government agency customers in areas such as:

- Application Development
- AI, data and digitalization
- Civil, defense and commercial space
- Cloud Computing
- Cybersecurity
- DevSecOps
- Defense modernization
- Engineering and systems integration
- Health and human performance
- Low-carbon and nuclear energy
- Missile defense systems
- Mission operations
- Modeling, simulations and training
- Science and sustainability
- Supply chain and asset management

BRONZE SPONSORS

DOMA Technologies (DOMA) was founded in Virginia Beach, VA in 2000, as a cloud-based document management company that realized a need for a holistic approach to document management and emerging cloud technology. DOMA addresses every part of the information management lifecycle from document conversion and data extraction to analytics and automated workflows. Ultimately, DOMA's solutions are designed to drive your organization's digital transformation by optimizing how you gather, analyze, and deploy information.

Tech2i is a woman-owned and woman-led small business, specializing in providing information technology services to both federal and commercial partners. With a demonstrated history of effectively implementing large-scale data solutions, streamlined cloud solutions, and fit-for-purpose Salesforce solutions, we lead with integrity in all our endeavors. Our agile and practical program management practices ensure successful implementations for our clients. We are driven by a passion for building technology solutions that enhance operational efficiency and elevate user experience.

MEDIA SPONSOR & PRESENTED BY

OrangeSlices AI. Playful Name. Serious about making Data available and accessible for a more competitive marketplace; and Disrupting the GovCon Competitive Intelligence Market.

The core mission for OS AI is to identify, share and create timely, actionable and responsible information and data products, tools and resources that 1) are accessible to all organizations and their teams, small to large; 2) will assist Federal government and Industry IT and consulting leaders to more effectively identify and engage with each other; and 3) shine a spotlight on those leaders and companies that are **#doingitright**.
