SIMULATED FIREARMS
TRAINING UK

TACTICAL SIMULATIONS

**Bridging the gap between necessary
firearms training for working in
hostile environments and strict UK
firearms laws.**

In the United Kingdom, access by to firearms is subject to some of the strictest control measures in the world. These restrictions make it very difficult for those looking to work in hostile environments to find adequate firearms training here in the UK.

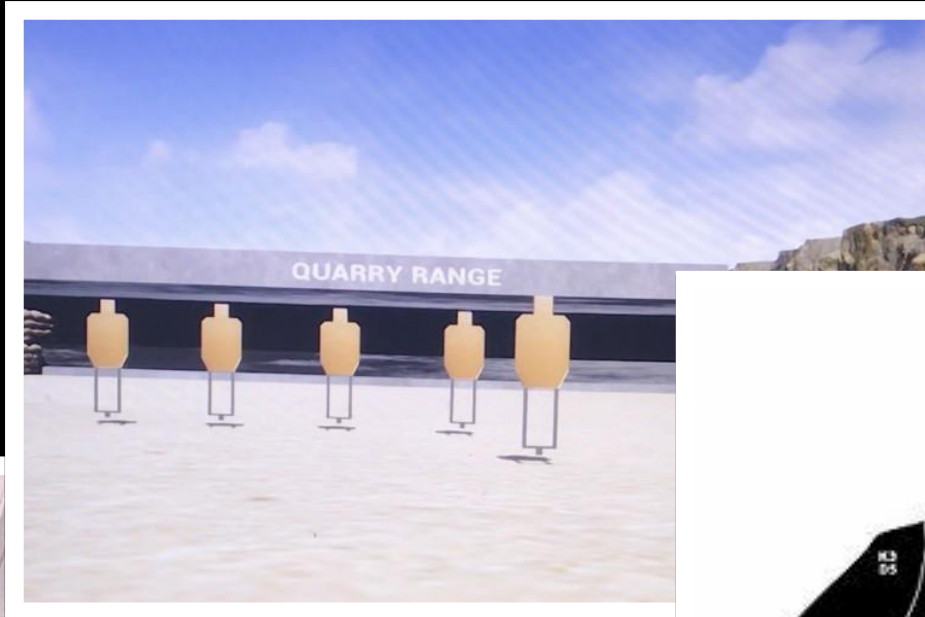

With simulation we are able to overcome the UK's firearms limitations and provide a range of firearm courses.
