

Little Snap Purse Instructions

1. Cut one in your chosen top fabric and one in your chosen inner fabric. Don't forget to add your half an inch seam allowance.
2. Cut one from your chosen wadding, slightly larger to allow for wiggle room when sewing.
3. Pin the right sides of your fabric together and place onto your wadding.
4. Sew together leaving the opening at the bottom to allow you to turn in the right way.
5. Once sewn together, trim and turn through to the right side.
6. Now press using an iron and top stitch all the way along this bottom edge.
7. Fold the bottom up and pin.
8. Now top stitch close to the edge all way around to make your case.
9. Next is the fastener, we've used a Prym Popper, but you could use Velcro or a button. We sell a selection of all the above materials needed for this project.

Happy Sewing 😊
