

2022

TO OUR GARDENING FRIENDS

So much fun this year!! It's such a pleasure to see our customers faces when they get here.

This has been a year of laughter and fun! We love it when our customers get that "special" plant they wanted. Or they make the most amazing combination of plants and watch them grow. We love it when they send in pictures of full grown "outstanding" containers! So THANK YOU for your continued support!

This year's plants should not disappoint. There are some really nice news ones. Sedum and echinacea varieties have really taken off. I encourage everyone to try a new sedum and/or echinacea. You won't be disappointed! They perform so well, especially, in our hot summer heat.

The customer support for our workshops is outstanding!! When you walk into one of our workshops, the laughter is contagious. We encourage all of you to come have some have and make some memories!

Can't wait to see all of you, as we start a new year!

HAPPY GARDENING! DIANE

CELEBRATING 22 YEARS SPRING OPEN HOUSE APRIL 22-24

FRI. 9-7 | SAT. 9-5 | SUN. NOON-5
FOOD SERVED SAT. 11 A.M.-2 P.M.

ABOUT DIANE'S

Diane's Greenhouse is a family owned business. We started our greenhouse in 2000. With only a thought and a prayer, and no experience, we knew we could do this. Our goal is to serve the customer with superior service. We strive for the highest quality plants you can find. We will continue to educate ourselves, and you, on having the best possible flower beds and containers possible. We hope you feel a little more like a pro, at the end of each season.

PERENNIAL OF THE YEAR

GRASS, BLUE HEAVEN FROM PROVEN WINNER

This grass is a little blue stem. One of my favorite plants for years.

Always hardy and easy to grow. And I love the bluish color in the summer and look forward to the purple highlights in the fall.

- ▶ Deer resistant
- ▶ Hgt. 3'
- ▶ Plant in sun
- ▶ Zone 3-9

CHECK FACEBOOK FOR WORKSHOP DETAILS!

Make sure to "like" Diane's Greenhouse Facebook page. This is the only way to qualify for giveaways!

SPRING WORKSHOPS

BEER AND BASKET NIGHT

Friday March 4

Drop in from 3 to 8 p.m. Please be finished by 8 p.m.

CONTAINER/COCKTAIL DAY

Saturday, March 5

Drop in from 9 a.m. to 3 p.m. We provide the 12" container, plants and soil. Other options of containers to choose from are at the greenhouse. Leave your container/containers here until end of April or mid-May. All containers must be picked up before Mother's Day! No need to bring anything-bring the fun! All our events are children friendly. **FEE: \$45**

SATURDAY MAKE & TAKE WORKSHOPS

March 12, 19, & 26

Drop in from 9 to 11:30 a.m. We like to have projects finished up by noon. No need to bring anything-bring the fun! All our events are children friendly.

- Fairy garden box **FEE: \$30**
- Succulent Bar **FEE: \$ VARIES**
- Terrarium bar **FEE: \$ VARIES**

Friday, Nov. 18

Drop from 3 to 8 p.m. Please be finished by 8 p.m.

Friday, Nov. 25

Drop from 9 a.m. to 6 p.m. Please be finished by 6 p.m.

CONTAINER/COOKIE DAY

Nov. 19 & 26

Drop in from 9 a.m. to 3 p.m. No need to bring anything-bring the fun! All our events are children friendly. FEE: \$35-50

LANDSCAPING

DIY is very popular when it comes to landscaping. At Diane's Greenhouse, we want you to become good at landscaping. Bring in, or email pictures and measurements and we will supply the plan. There's no charge for the plan, but we require you to buy all plants from us. We will teach you how!

If DIY is not for you, we will refer you to the landscaper we use. Let us make your dream come true! **NO JOB IS TOO BIG OR TOO SMALL!**

DIANE'S HELPFUL HINTS

GROWING VEGETABLES

So many people have problems with blight on their tomatoes. I have found two things that could eliminate blight from your garden. Consistency in keeping your garden moist. A 1" layer of mushroom compost will help hold in the moisture for your plants. Nutrition! Add 1-2 ice cream buckets full of mushroom compost to each plant. For a tomato, dig your hole, as deep as the tomato plant. Work in 1-2 ice cream buckets full of mushroom compost. Then plant your tomato plant deep – leave a couple of inches above ground. The whole stem will form roots. The mushroom compost will add beneficial bacteria into the soil. This will choke out the bad bacteria, and create a healthier plant. I know this works! No need to add any other fertilizer for the season. You will be able to grow fewer plants, because the plants you have will produce more fruit! I don't like grass clippings for mulch. Especially, if you used weed and feed on your lawn.

Also, If you are using other compost, do you know what's in it? Is it composted lawn clippings? Full of herbicide? Please don't add it to the garden!

ALCEA, FIESTA TIME (HOLLYHOCK)

ALLIUM, SERENDIPITY

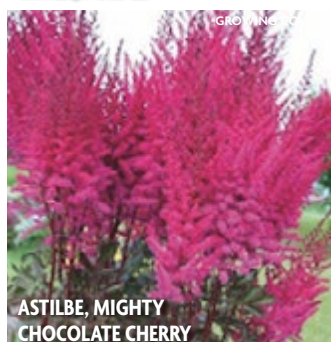

ASCLEPIAS, TUBEROSA (SILKWOOD)

ASTER, PURPLE

ASTILBE, HOT PEARLS

ASTILBE, MIGHTY CHOCOLATE CHERRY

BAPTISIA, DECADENCE BLUEBERRY SUNDAE (FALSE INDIGO)

BAPTISIA, DECADENCE PINK LEMONADE (FALSE INDIGO)

BAPTISIA, HONEY ROASTED

AJUGA, PARROT PARADISE Tri color leaves of bright yellow, orange and red. Cobalt blue flowers in spring. Shade, Hgt. 6", Zone 3-9.

ALCEA, FIESTA TIME (HOLLYHOCK) A shorter hollyhock with stunning double two-toned pink flowers. Sun, Hgt. 2-3', Zone 2-9.

ALLIUM, SERENDIPITY Globe like, rosy -purple flowers in mid to late summer. Sun, Hgt. 15-20", Zone 4-8.

ASCLEPIAS, TUBEROSA (SILKWOOD) Blooms in summer. Brilliant orange flowers. Late to break dormancy. Full Sun, Hgt. 40", Zone 4.

ASTER, PURPLE Great fall color. Mix with mums and other asters. Long bloom time in fall. Full Sun, Hgt. 15, Zone 3.

ASTILBE, HOT PEARLS Graceful red plumes in summer. Beautiful and showy in the shade garden. Shade, Hgt. 18", Zone 3-8.

ASTILBE, MIGHTY CHOCOLATE CHERRY Giant astilbe has clusters of cherry red flowers on dark stems up to 4' tall. Shade, Hgt. 3-4', Zone 3-8.

BAPTISIA, DECADENCE BLUEBERRY SUNDAE (FALSE INDIGO) A Proven Winner plant. Vibrant indigo-blue flowers. Decorative seed pods in fall. Sun to part sun, Hgt. 3', Zone 4-9.

BAPTISIA, DECADENCE PINK LEMONADE (FALSE INDIGO) A Proven Winner plant. A first bi-color. Soft yellow flowers age to dusty raspberry purple. Sun to part sun, Hgt. 3-4', Zone 4-9.

BAPTISIA, HONEY ROASTED Long 10" spikes of dark mahogany flowers with bright yellow. Blooms early summer. Sun, Hgt. 3', Zone 4-9.

BRUNNERA, JACK FROST (HEARTLEAF) A favorite plant. Beautiful blue flowers cover the plant in spring. Shade, Hgt. 12-15", Zone 3-8.

CIMICIFUGA, BRUNETTE Very dark purple foliage, bottlebrush light pink flower spikes. Fragrant. Blooms in late summer. Shade, Hgt. 3-4', Zone 4-8.

COLUMBINE, EARLYBIRD PURPLE BLUE Two toned purple with blue flowers in spring. A very long bloom time. Sun or Shade, Hgt. 9-11", Zone 3-8.

COREOPSIS, MOONBEAM AND ZAGREB (TICKSEED) Many yellow flowers in summer. Excellent performer. Full Sun, Hgt. 15", Zone 4-9.

DAYLILY, PASSIONATE RETURNS Huge, deep purple red flowers in summer. High bud count. 8" flowers. Sun, Hgt. 17", Zone 3-9.

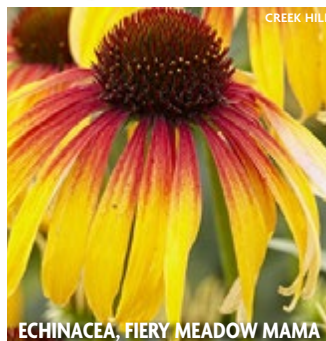

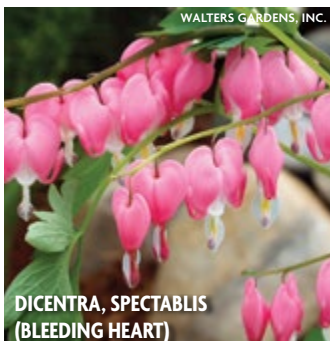

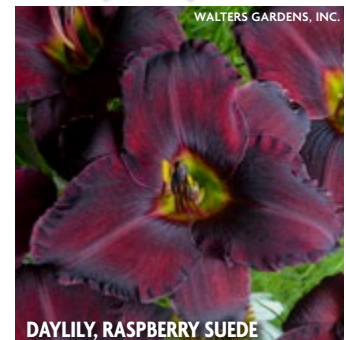

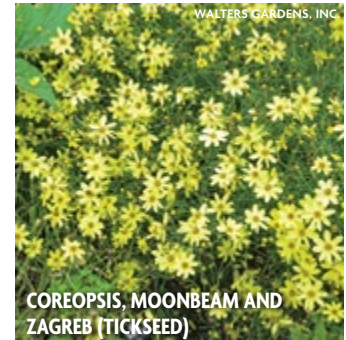

DAYLILY, RASPBERRY SUEDE Rich raspberry red flowers. Keeps in dark colors in sun. Sun, Hgt. 30", Zone 3-9.

DICENTRA, SPECTABILIS (BLEEDING HEART) Chains of pink hearts. An old time favorite. Great spring time bloomer. Sun or shade, Hgt. 30", Zone 3-9.

ECHINACEA, CHEYENNE SPIRIT (CONEFLOWER) Incredible color range of red, orange, yellow. First year flowering. Deer resistant. Sun, Hgt. 22-30", Zone 4-9.

ECHINACEA, FIERY MEADOW MAMA Downward yellow petals are striking in the flower garden. Deer resistant. And very hardy. Sun, Hgt. 20-24", Zone 4-9.

ECHINACEA, FINE FEATHERED PARROT Bi colored yellow and red flowers. A good sturdy and hardy plant. So much color for one plant. Sun, Hgt. 18-24", Zone 4-9.

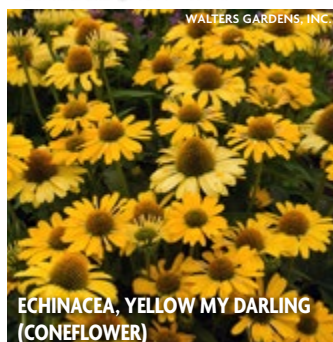

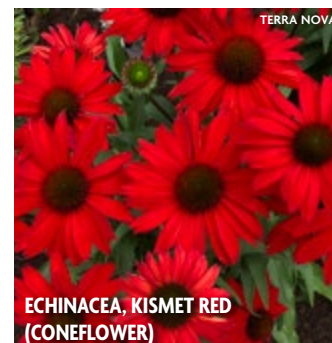

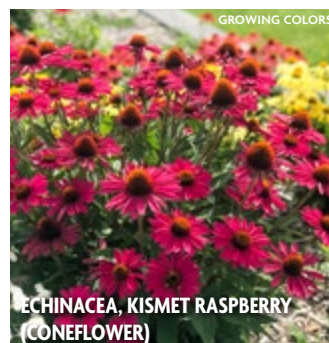

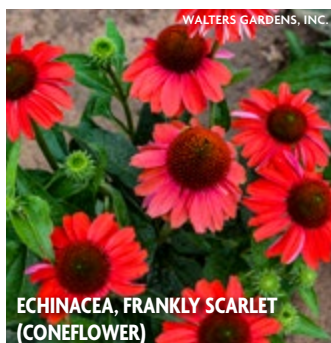

DIANE RECOMMENDS MUSHROOM COMPOST

Totally organic rich dark mixture of wheat straw, peat moss, cottonseed meal, gypsum, lime and chicken litter. This combination is superior to other compost.

- Compost will keep the ground temperature cooler and help add moisture.
- Work in 2-3" layer when planting a new tree, add a 2 gallon bucket full.
- Add a 2" layer to large (whiskey barrel size) containers.

- Add a 5 qt. ice cream bucket full/vegetable plant.
- Top dress all containers, existing flower beds and trees.
- Add a 1 gallon bucket of mushroom compost/perennial.
- The end of June (after soil temps heat up) mulch each vegetable plant with a 1" layer of mushroom compost.

ECHINACEA, FRANKLY SCARLET (CONEFLOWER) A Proven Winner plant. 4" bright scarlet flowers in summer. A great bloomer. Sun, Hgt. 26-28", Zone 4-8.

ECHINACEA, HOT PAPAYA Robust grower. Strong sturdy stems with bright orange flowers. Sun, Hgt. 32-36", Zone 4-9.

ECHINACEA, KISMET RASPBERRY (CONEFLOWER) A great garden performer. Long lasting flowers on a sturdy plant. Sun, Hgt. 16-18", Zone 4-9.

ECHINACEA, KISMET RED (CONEFLOWER) Large red and early blooming. Reblooms all summer. Sun, Hgt. 18", Zone 4-9.

ECHINACEA, POW POW WILD BERRY (CONEFLOWER) Large 3-4" deep rose flowers in summer. Blooms all summer. Deer resistant. Sun, Hgt. 20-24", Zone 4-9.

ECHINACEA, YELLOW MY DARLING (CONEFLOWER) A Proven Winner plant. Rich yellow flowers in summer. Long blooming. Sun, Hgt. 18-24", Zone 4-8.

FERN, AUTUMN FERN Early spring fronds are copper, turning deep green by summer. Then turn coppery again in fall. Shade, Hgt. 18-24", Zone 4-9.

GERANIUM, ROZANNE (CRANESBILL) Perennial of the Year 2008. Full to part sun, Hgt. 18-20", Zone 4-8.

GRASS, AUTUMN RED Plumes in mid-summer. An excellent grass for fall color. Full to Part Sun, Hgt. 5', Zone 4-9.

GRASS, BLACKHAWKS (BIG BLUESTEM) Grass starts dark green and turns dark purple than to near black. A great big blue stem grass. Sun, Hgt. 5', Zone 3-9.

DIANE'S HELPFUL HINTS CARING FOR PERENNIALS

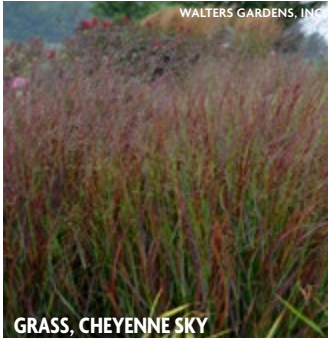

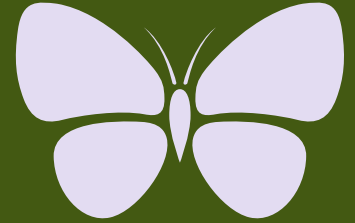

Why do plants die or why don't they thrive? The answer is simple — watering and/or nutrition, and quality of the plant from the beginning.

NUTRITION: I mention mushroom compost all the time. Why? Because I know it works. Add at least 1 gallon of mushroom compost/perennial. More if you have poor soil. You are adding the good bacteria the plant needs to thrive. Also, the compost will help hold moisture and will break up clay soil and add substance to sandy soil.

WATER: I hear it all the time, "I watered, watered, watered." Then you didn't water correctly, if your plant did not thrive. A newly planted perennial will need about 5 gallons/week during a dry spell. A newly planted tree will need 20 gallons/week. Things have been extreme the last couple of summers, don't be afraid to give your plant water! Giving your plant, a shot of water every day, is not enough! Deep watering is the way to go. That's where 1-3" of mushroom compost will help each plant, retain moisture and give it amazing benefits.

PERENNIALS TO ATTRACT BUTTERFLIES

Asclepias	Catmint	Daylily	Weed	Phlox
Aster	Coneflower	Dianthus	Lavender	Yarrow
Astilbe	Coreopsis	Joe Pye	Liatris	

GRASS, CHEYENNE SKY A beautiful, easy and hardy! Blue green foliage that turns wine red in summer. Purple flower heads. Sun, Hgt. 3', Zone 4-9.

GRASS, ELIJAH BLUE The best blue grass. Forms a dense mound. Sun to Shade, Hgt. 10", Zone 4-8.

GRASS, KARL (CALAMAGROSTIS) Feather Reed Grass Compact and upright. Wheat like seed heads in summer. Most popular. Sun, Hgt. 4', Zone 4-8.

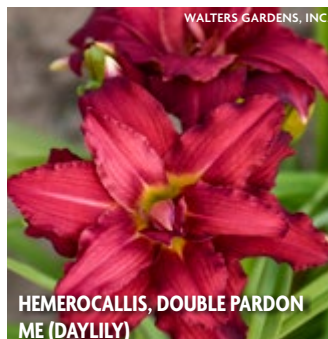

HELLEBORUS, CONFETTI CAKE Double white flowers with burgundy speckled centers. Blooms in spring. Shade, Hgt. 18-24", Zone 4-9.

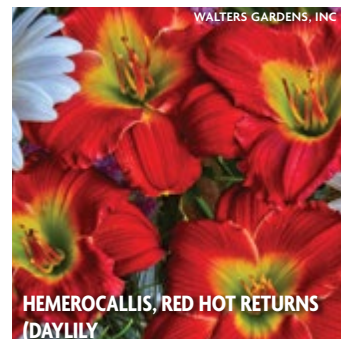

HELLEBORUS, RIO CARNIVAL Single yellow flowers with heavy burgundy red speckling. Shade, Hgt. 2-3', Zone 4-9.

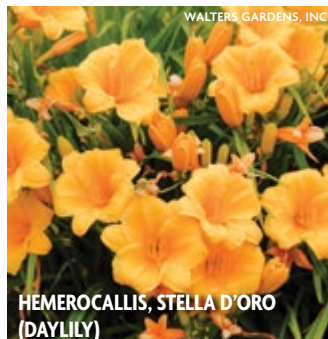

HELLEBORUS, SANDY SHORE Pale apricot flowers with rosy peach flowers. Blooms in spring. Shade, Hgt. 18-24", Zone 4-9.

HEMEROCALLIS, DOUBLE PARDON ME (DAYLILY) A double red daylily! Reblooming. Sun, Hgt. 18", Zone 3-9.

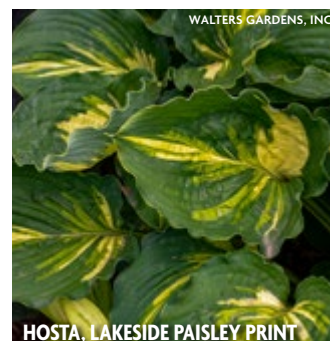

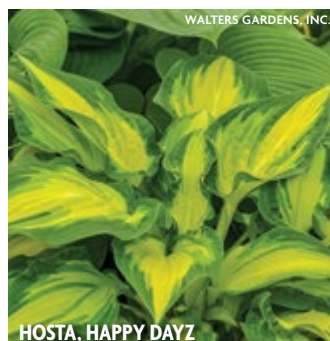

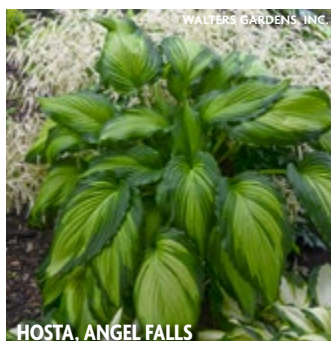

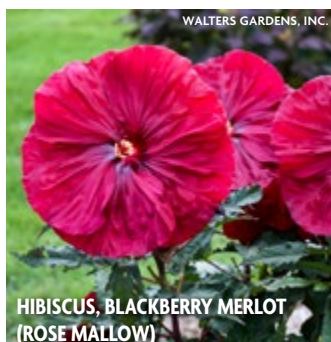

HEMEROCALLIS, RED HOT RETURNS (DAYLILY) A continuous red blooming daylily. Vigorous grower. Blooms all summer. Rabbit Resistant. Sun, Hgt. 24-28", Zone 3-9.

HEMEROCALLIS, STELLA D'ORO (DAYLILY) Blooms all season long. Most popular daylily. Re-bloomer. Full Sun, Hgt. 15", Zone 2-9.

HEUCHERA, FIRE ALARM (CORAL BELLS) A great red coral bell. Fiery red in spring and fall. Pink flowers in summer. Sun, Hgt. 9-13", Zone 4-9.

HIBISCUS, BLACKBERRY MERLOT (ROSE MALLOW) 8" deep red flowers in late summer. Can't get enough hibiscus. Sun, Hgt. 4', Zone 4-9.

HIBISCUS, CRANBERRY CRUSH (ROSE MALLOW) Deep scarlet red flowers. Maple like leaves. Blooms late summer. Sun, Hgt. 4-5', Zone 4-9.

HIBISCUS, EVENING ROSE (ROSE MALLOW) 8" hot pink flowers with near black foliage in late summer. Sun, Hgt. 4', Zone 4-9.

HIBISCUS, HOLY GRAIL (ROSE MALLOW) Incredibly dark, near black leaves with 8-9" intense red flowers. Sun, Hgt. 4-5', Zone 4-9.

HIBISCUS, INNER GLOW (ROSE MALLOW) Rich rose pink flowers with a lavender purple halo. Very hardy. Large dinnerplate flowers. Sun, Hgt. 4', Zone 4-9.

HIBISCUS, STARRY STARRY NIGHT (ROSE MALLOW) Stunning flowers with dark foliage. Near black leaves with two-toned pink flowers. Sun, Hgt. 4', Zone 4-9.

HOSTA, ANGEL FALLS Heavily variegated foliage. Light lavender flowers. Shade, Hgt. 16", Zone 3-9.

HOSTA, AUTUMN FROST-PROVEN WINNER 2022 Proven Winner Hosta of the Year. Frosty blue-green leaves with yellow margins. Light lavender flowers. Shade, Hgt. 12-16", Zone 3-9.

HOSTA, CAPTAIN KIRK Dark green edges with bright gold center. Pale lavender flowers. Shade, Hgt. 20", Zone 3-9.

HOSTA, EMPRESS WU A Proven Winner plant. The largest hosta. A great focal point. Massive upright clump. Shade, Hgt. 36-48", Zone 3-9.

HOSTA, GOLD STANDARD Large mound of leaves with a dark margin and light green center. Pale lavender flowers. Shade, Hgt. 20", Zone 3-9.

HOSTA, HAPPY DAYZ Blue green foliage with yellow centers. Lavender flowers. Shade, Hgt. 18-32", Zone 3-9.

HOSTA, LAKESIDE PAISLEY PRINT Stunning heart shaped leaves with wide, wavy leaves. Lavender flowers. Shade, Hgt. 10", Zone 3-9.

DIANE'S HELPFUL HINTS

CREATING A HANGING BASKET

- ▶ Start with good quality potting soil – we use PRO MIX
- ▶ Use top quality plants – not all plants are created equal. At Diane's Greenhouse we give our plants the best care they can get. We use the best potting soil, they are watered when they need it and they are fed! So when our plants get to your house, they are ready to explode.
- ▶ When you get your basket home, you can give it a trim (see photo). I know it's hard to do, but it's worth it.
- ▶ After I trimmed it, I added 3 Tbs. of Proven Winner slow release. And I fertilized with "Nature's Source" (formerly known as Daniels), daily all through the summer.
- ▶ I water my baskets daily on a drip system.

BEFORE TRIM

AFTER TRIM

IN AUGUST

JOE PYE WEED, PINK FROST Variegated green and cream foliage. Clusters of pink flowers in late summer. Great/hardy plant. Sun, Hgt. 30-36", Zone 4-8.

LEUCANTHEMUM, BECKY Durable in hot summers. 3" large white flowers. Sun, Hgt. 36", Zone 5-9.

LIATRIS, KOBOLD (BLAZING STAR) Rose/lavender flower spikes Blooms in summer. Full Sun, Hgt. 2', Zone 3-9.

LIGULARIA, BOTTLE ROCKET An excellent garden performer. Mustard yellow flowers in summer. Chocolate colored stems. Shade, Hgt. 30", Zone 4-9.

MONARDA, LEADING LADY RAZZBERRY Rich raspberry flowers. Very hardy and a long bloomer. Sun, Hgt. 10-14", Zone 4-8.

MONARDA, PARDON MY CERISE Dark cherry red flowers. A standout in the sun garden. Sun, Hgt. 14-18", Zone 4-8.

MONARDA, SUGAR BUZZ BERRY TAFFY Hot raspberry pink flowers in summer. Bee balm is one of my favorites. Great bloomer. Sun, Hgt. 14-16", Zone 4-8.

NEPETA, CATS PAJAMAS A smaller version of catmint. Indigo blue flowers in summer. Long bloomer and very hardy. Sun, Hgt. 12-14", Zone 3-8.

SEMPERVIVUM COLLECTION D (HEN & CHICKS) Pineapple paradise, Appletini, Cosmic Candy. Sun, Hgt. 2", Zone 3-9.

DIANE'S HELPFUL HINTS TREES & SHRUBS

- ▶ Trees require 20 gallons of water/week
- ▶ Shrubs require 10 gallons/week
- ▶ Add a gallon bucket of mushroom compost to each vegetable plant. Also, mulch with a 3", layer. You'll be amazed with the results. Less disease and more fruit!
- ▶ When planting a new tree, cover the trunk with a white, perforated tree protector. This will protect

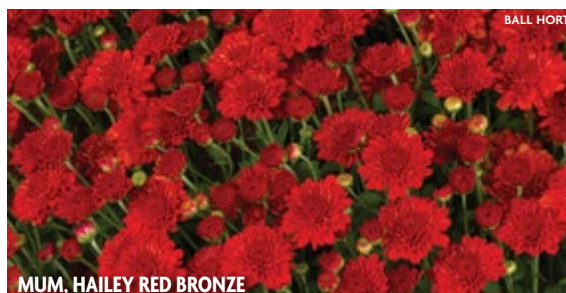

the tree for the winter, and against rabbits. Leave on all year, until the tree forms it's real bark.

- ▶ When you purchase a tree or shrub, be sure to water the container every day. The tree or shrub must get planted wet! If it's a hot, windy day, water the container first, dig your hole and plant your item. Water the tree or shrub thoroughly. Keep the root ball of the tree or shrub moist. It

helps to mulch your tree, to keep the moisture in the ground. We also recommend to incorporate one package of Soil Moist in the soil at time of planting. Most problems come from under watering or over watering.

- ▶ Always plant a tree 2" above ground including mulch.
