FINE LLAMA & ALPACA PRODUCTS

NATURAL, FARM SOURCED, SUSTAINABLE

PRODUCT CATALOGUE

Nealry all of our products contain fibre from animals that were born, raised and sheared right here on our farm! The llamas & alpacas think this is pretty special and so do we – we hope you will too!

WHY LLAMA & ALPACA FIBRE?

Llama and alpaca fibre is renowned around the world for its exceptional softness, durability, and natural performance. Valued for centuries, it is one of nature's finest luxury fibres, offering comfort, beauty, and functionality in every garment.

Exceptionally Soft & Luxurious

Llama and alpaca fibre has a silky, smooth texture that feels wonderfully soft against the skin. High-quality fibre is comfortable enough to be worn next to the skin, making it ideal for scarves, hats, socks, sweaters, and other apparel.

Naturally Hypoallergenic

Unlike sheep's wool, alpaca and llama fibre contains very little lanolin. This makes it an excellent choice for many people who find traditional wool irritating, while providing an incredibly soft and comfortable feel.

Warm Without the Weight

Each fibre contains microscopic air pockets that create excellent natural insulation. This unique structure helps keep you warm in cold weather while remaining lightweight and breathable.

Strong, Durable & Long-Lasting

Llama and alpaca fibre is naturally strong and resilient. Despite its fine, luxurious feel, it maintains excellent durability, helping garments retain their beauty and performance for years.

Moisture-Wicking & Comfortable

The fibre naturally wicks moisture away from the body, helping regulate temperature while reducing dampness and odor. This makes it well suited for both everyday wear and outdoor activities.

Beautiful Natural Colours

Llamas and alpacas produce fibre in an impressive range of natural colours, with more than 22 genetically distinct shades and countless subtle variations. These beautiful natural colours often require little or no dyeing, showcasing the fibre's authentic beauty.

Takes Dye Beautifully

When colour is desired, llama and alpaca fibre readily accepts dyes while maintaining its natural luster and softness, resulting in rich, vibrant colours.

A Premium Natural Fibre

Because the supply of high-quality llama and alpaca fibre is limited, it is considered a premium natural fibre. Products made from it represent exceptional craftsmanship, comfort, and longevity—an investment in quality that can be enjoyed for many years.

SOCKS

HALF RIBBY SOCKS

80% Alpaca/llama wool, 18% Nylon, 2% Spandex
Naturally hypoallergenic, moisture wicking,

60% Alpaca, 20% Merino Wool, and 20% Nylon
Added Merino and Nylon for extra durability.
Machine washable.
Sizes: S, M, L, XL

\$30.00

SOCK SIZING

Our sock sizes correspond to men's shoe sizes or are slightly smaller. Most men tend to fit into sizes 10-12 or 13-15. Most women tend to fit into sizes 4-6 or 7-9. If your foot size is right on the upper border of a size range, we would recommend getting the next size up. This makes them a bit more forgiving when it comes to washing.

Sock Size Chart	Mens Shoe Size	Womens Shoe
S	4 - 6	7 - 9
M	7 - 9	9 - 11
L	10 - 12	11 - 13
XL	13 - 15	13+
