Order form / build sheet for the 1911 Single Stack Series

Base Price is \$3,400.00

You can choose to have a second slide built in case you want to be able to change calibers quickly in the field. You can have a 9MM slide and a 45 ACP slide and quickly change while in the field. The only component on the firearm that requires a tool to convert from one caliber to another is the Ejector and we provide the Allen wrench and different ejector to make the change happen quickly. Once you do it a couple of times it will take you two minutes to change slides and be shooting a different caliber. We provide extra magazines and Ejectors with each caliber change.

Additional price for a complete slide NON Caliber Change.

Standard slide \$1100.00 Ported slide \$1350.00 Threaded Barrel Slide \$1300.00

**The additional price for a complete slide with caliber change. Added cost is due to
Magazines and Ejector**

Standard slide \$1250.00 Ported slide \$1500.00 Threaded Barrel Slide \$1450.00

Trigger Options and Setup.

Please indicate the style and trigger release you would like on your firearm. You must read and agree to the statement below regardless of what trigger release you choose.

This firearm is delivered as a custom firearm, the trigger pull/release can be adjusted from 2lbs to 8 lbs. A trigger release of 5 lbs or less is considered a competition trigger release, competition triggers are insanely light for a reason, you're using it for maximum efficiency under very limited stress in a highly controlled and predictable environment. Combat or duty carry firearm triggers aren't light for a reason. When you need them, you're a ragging mess of nerves and mistakes that hopefully your training can overcome. You and you alone are responsible for determining what type of firearm and what options you require or want.
