A Path Forward for Adult Learners

For many people, going back to school or building new skills as an adult can feel overwhelming. That's where the Bashaw Adult Learning Program comes in by offering a supportive, welcoming place where people can take that next step with confidence. Whether someone wants to improve their reading and writing, learn how to use a computer, or start planning for college or a trade, the program is designed to meet people where they are at. A big part of the program focuses on literacy by helping people feel more confident with reading, writing and everyday communication. These are skills that make a real difference in daily life, from filling out forms to helping kids with homework or feeling more comfortable in the workplace.

Another growing area is digital literacy. With so much of life now happening online, the program supports learners in building basic computer skills, navigating the internet and accessing important services. But the support doesn't stop there. The Bashaw Adult Learning Program also helps people take the next step into post-secondary education or the trades.

This can include:

- Upgrading high school courses
- Preparing for college or university applications
- Exploring career pathways
- Getting started in apprenticeship or trades programs

The program also focuses on foundational learning which are the building blocks that help people move forward, whether that means entering the workforce, continuing their education or simply feeling more capable in everyday life. In a rural community like Bashaw, having access to this kind of learning close to home matters. It removes barriers and makes it easier for people to take that first step. At the end of the day, the Bashaw Adult Learning Program isn't just about education, it's about opportunity. It's about helping people build skills, confidence and a path forward, right here in their own community.

It's Been a Year!

Last week, the Bashaw Medical Clinic celebrated the one year anniversary of our integrated and inter-professional team-based model of care. If you have been to our community's innovative medical clinic, you know you are in the expert care of a team of professionals who are here for you and your family, with the advice and support that you need, when you need it.

The Bashaw Medical Clinic needs your help! Do you have a story to share about the care you've received this past year? We are always looking for ways to improve service and serve the needs of our region more completely. We would also love to hear about how the clinic has made a difference in the lives of the patients we serve.

We've partnered with Care Opinion Canada to collect patient, client and caregiver feedback. Your stories are important to us! Please visit the link to Bashaw's Care Opinion profile to share your story!
