Healthy Families is a home based program. Our primary focus is on fostering the growth of secure attachment relationships and developmentally enriched, empathetic parenting that supports families to reduce their stress and build protective buffers for their children. We utilize the Growing Kids Curriculum.

The level of engagement and partnership with families encourages families to have a voice and choice in the planning of home visits. Home Visitation Facilitators provide tools and materials that bolster child development in all development domains. The Healthy Families program supports the foundation of relationship-based partnerships that result in nurturing resilient families and balancing risk and protective factors.

There are nine parenting skill sets that makeup "The Key Ingredients" and support families to build secure parent-child relationships and grow nurturing parenting skills.

They Include 6 Daily Dos:

- E-Parenting- Growing empathetic parenting skills and self-regulation in children
- Character Builders- Growing parenting skills that support strong social and emotional development
- Two-Way Talk- Building early language development
- Brain Builders- Supporting cognitive development and learning
- 5-Steps to Success- Building self-esteem and supporting learning
- Body Builders- Growing excellent physical development and health

And 3 Attachment Boosters:

- Getting in Sync- Supports parents to tune into their child's cues and respond to them in loving and developmentally supportive ways
- Pause and Repair- Supports parents to reconnect with their children and remind them they are safe, loved and valued
- Ready for Play and Learning- Supports parents to read their child's playful cues

Beyond the nine parenting skills, Growing Great Families focuses on strengthening families, stress management, life skills, building protective buffers and promoting resilience.
