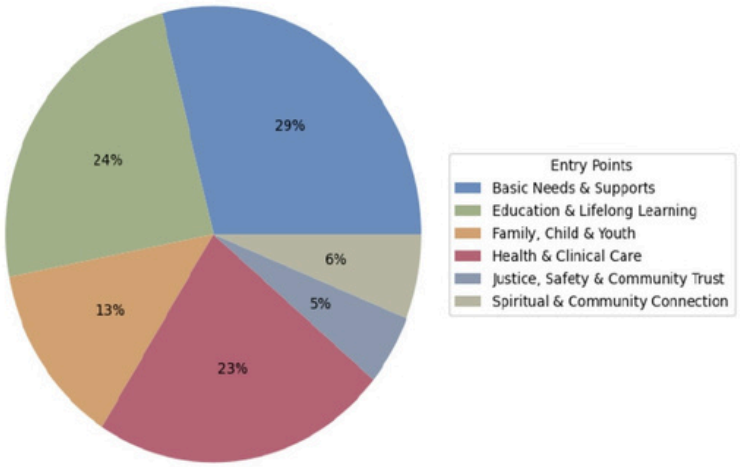
WE ARE PART OF A REGION

As a rural model for serving locally, wrap-around services help to reduce barriers and promote personal health and community well-being. Collaborative partnerships with individuals, agencies and organizations both inside and outside the community form the pillars of this work.

Services are offered in a region comprising of Alix, Bashaw, Buffalo Lake Estates, Donalda, Dorenlee, Edberg, Ferintosh, Meeting Creek, Mirror, Pelican Point and Tees. Bashaw is a natural hub in the geographic area and the Village of Alix is the second largest center. These communities are a part of a broad vision to bring responsive and accessible programs and services to a rural population.

Community Entry Points into Integrated Care



This chart reflects the first point of connection where community members entered support under the 'Any Door is the Right Door' integrated care model.

Percentages based on 11,800 community service visits (touchpoints).

Place of Residence of Community Members Served

Location	Percentage
Bashaw	28%
Alix	29%
Counties (Camrose, Lacombe, Ponoka, Stettler)	31%
Other (Outside the area)	12%

Population Age Distribution Within Service Area

Age Group	Percentage of Total Population (10,255)
Youth (0–17)	25%
Adults (18–64)	57%
Seniors (65+)	20%

During 2025, the Bashaw Wellness Team developed a collaborative model of health to complete the circle of services for the community.

As a region, this model works to support individuals and families no matter how they access services through one wellness plan.

We are working towards implementing new data collection to reflect this update and support how we are serving our community, as ‘any door is the right door!’.

How does the Integrated Care Model Work?

The team works together to support individuals and families in different ways. By connecting, making decisions as a team, and acting early, they can spot problems before they get worse. By building trust, offering help, and tackling challenges together, they not only solve issues right away but also make the community stronger for the future, helping everyone live safer and healthier lives.
