Benefits

BENEFITS OF EQUINOX SELF-WATERING DESERT PLANTERS

- Save up to 80% on Fuel, Water & Labour
- Promotes extraordinary rapid and lush plant growth by supplying water from below the soil
- Eco-Friendly, reduce carbon footprint
- Double wall rotational mold for extreme durability
- Patented HydraFilter™ Self-Watering Technology
- Designed and manufactured in-house
- Commercial Grade for year-round beautification
- UV Stabilized and will not fade, crack, chip, or peel
- Baskets are equipped with 2½ ft stainless chain with lock clip
- With our baskets turn daily watering into once or twice a week
- 10 Year Warranty
- Planters are fully assembled and ready to use

Equinox self-watering planters all come equipped with our patented HydraFilter™ technology and utilize a water reservoir to keep the soil hydrated during extended periods between watering, without subjecting the plants' roots to overwet undrained conditions.

Reduce Greenhouse Gas Emissions

Let us help you make the best environmental decision for your community.

Reduce your community's green house gas emissions through decreased fuel consumption by .4 metric tons per year. That's equivalent to planting 7 trees grown for 10 years! Conserve over 24,000 liters of water yearly and prevent greenhouse gas emissions associated with treating and distributing water.

Save water, fuel and labour while reducing your environmental impact.

Equinox Self-Watering Planters save resources and help the environment, while adding a distinctive flair to your landscape.

Trees or large plants surrounded by amazing flashes of colour is a sure way to beautify your surroundings – businesses, cities and municipalities all find Desert Planters ideal for brightening up their outdoor spaces. These large planter varieties come in 42" to 60" diameters, and 28" to 40" depths. Combining these planters in Equinox's 16 colours with the variety of trees, plants and flowers available allows for almost infinite options for creativity.

Visit us today at www.desertplanters.com and let us help you plan for enhancing your surroundings.

Equinox - Your Dog Park Solution

We have everything you need to keep your dog park clean and fun!

MAXI In-Ground Containers
with and without skirting
available in 4 sizes with
multiple lid styles

MINI In-Ground
available in 2 sizes

**Dog Park
Waste Bag
Dispenser**

Above-Ground Container
available in 2 finishes

Equinox's Dog Park products are designed to maximize **Environmental Benefits** for waste disposal.

- ✓ **Geothermally cooled** to reduce odours
- ✓ Drastically **reduces pick up frequency** allowing for both savings on labour and fuel
- ✓ Provides **Gravity compression**
- ✓ **Insect, bird and animal resistant**
- ✓ Comes with **Proprietary flange** for anchoring

JUMBO 48

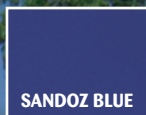

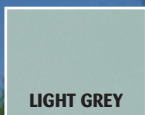

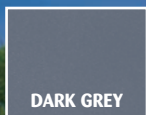

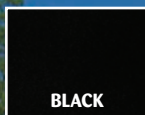

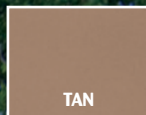

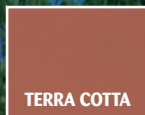

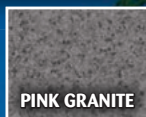

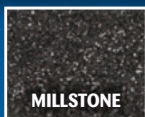

Benefits of an in-ground container

- Self closing lid with gasket**
air and water tight acts as a insect, bird and animal deterrent
- Odor and Fire flange**
Controls air movement inside the container, helping with odor and fire control
- Equipped with Locking devices**
Restricts access and limits vandalism
- Unique anchoring flange**
Stabilizes the container in areas of high water tables and freeze thaw conditions
- Gravity Compressed**
Due to high volume capacity the refuse self compacts achieving an average of a 2:1 compaction ratio compared to normal baskets or barrels
- Geothermal cooling**
In-ground refuse is naturally kept cool slowing decomposition allowing for longer garbage removal cycles
- Constructed from rugged Polyethylene**
Very durable, rust and decay free
- Variety**
A great selection of sizes, colors and cladding to suit most applications

COOLING COMPRESSION
