

# Penguins

Provided: paper cup, glue,  
coloured paper

You need: scissors

1. Draw desired outline of feet, wings, beak, eyes and head on coloured paper. In the picture you can see 2x orange feet, 2x triangles for beak, 2x black ovals for wings, a black and white oval for the head, 2x white circles for the eyes and a long black rectangle for the body.
2. Glue feet to bottom inside of the cup, hold in place to dry (approximately 1 minute)
3. Wrap black rectangle around the cup and glue in place, leaving white at the front for the penguin's belly.
4. Glue wings to black body, hold in place until dry
5. Glue beak & white circles to white oval face, then glue white oval to black oval.
6. Colour small black circles on white eyes
7. Once head is dry, glue to the inside of the top rim of paper cup, and hold until dry
8. Allow the whole penguin to dry before you move it

Note: Adult supervision is advised when using scissors
