

More event.

Less eventful.

Seamless communication made simple

Effective communication between event staff and local government agencies is a leading challenge every event company faces during critical times when seconds count. We employ proven tactics to orchestrate resources during emergent incidents to safeguard the well-being of attendees.

On-Site Event Command

Communicators with extensive public safety experience equipped with NIMS/ICS certifications lead your event communications in a mobile or on-site command center.

Tailored Solution Design

System engineers who specialize in Information Systems and communication system design integrate and solution an end-state platform that matches your budget and needs.

Mission-Critical Systems

Your team stays connected with an industry-leading P25/DMR Tier III platform and dispatch system designed to withstand any outage or obstacle.
