#### After the First Flower

The telescopes couldn't see it.  
None of the instruments could play  
its tune, or tell the story  
Of how it came to be  
Where everything else is from.  
Only the apple of a love-struck eye

Could follow the star-lit track  
Back to the first tick of time—  
Back through the vast fireworks  
Of deep space—to the deepest spring  
Where the hibiscus at the center  
Of the universe still bursts in bloom.
