

## DIY Security Door Measurement Guide

### Thank you for choosing our DIY Supply-Only Security Door option!

Follow the steps below to ensure you provide the correct measurements for a perfect custom fit.

---

#### Tools You'll Need

- Tape measure (metal preferred for accuracy)
  - Notepad or printed version of this guide
  - Pen or pencil
  - Smartphone (optional – take photos if unsure)
- 

#### Step 1: Determine Your Door Type

There are two common door setups:

- **Recessed Door Frame:** Door sits inside the frame.
- **Face-Fixed Door Frame:** Door is mounted on the surface of the wall.

Take a look at your entryway and note which type you have.

(Send us a picture to our email if unsure)

---

#### Step 2: Measure the Opening

Take **3 width measurements** and **3 height measurements** as shown below. Always measure in **millimetres (mm)** for precision.

##### **Width (Measure in 3 spots):**

1. Top
2. Middle
3. Bottom

##### Record the smallest width.

##### **Height (Measure in 3 spots):**

1. Left side
2. Centre
3. Right side

##### Record the smallest height.

**Example:**

- Top width: 872mm
  - Middle width: 870mm
  - Bottom width: 871mm
- ✓ **Use: 870mm**
- 

### ✓ **Step 3: Confirm Swing Direction**

Stand outside your door (facing it). Note which side the hinges are on:

- Hinges on the **left** = **Left-hand** swing
- Hinges on the **right** = **Right-hand** swing

Also, confirm whether it opens **inward** or **outward**.

---

### **Step 4: Submit Your Measurements**

Provide us with:

- Width (in mm)
- Height (in mm)
- Door type (recessed or face-fixed)
- Swing direction (left/right) and open in/out
- Any photos (optional but helpful)

Send this info to: [secureathomescreens@gmail.com](mailto:secureathomescreens@gmail.com)

---

### **Tips for Accurate Measuring**

- Double-check all measurements
  - Use a steel tape, not a cloth one
  - Measure to the nearest millimetre
  - Take a clear **photo of the doorframe** if unsure
- 

**Please note that payment must be made before your order will be sent out to you.**

**Secure at Home**
