# GET YOURS NOW

## Liberty-Foam™ Disinfecting Soap Unscented

*Liberty-Foam is a hand sanitizing foam that made from all-natural ingredients. Professional grade, and concentrated.*

*There's no alcohol. There's no fragrance. Just safety.*

*Use it and get Freedom from viruses, Freedom from fear.*

Imagine  
a hand sanitizer that not only virtually  
eliminates bacteria and other germs  
from your skin, but feels good.

It's here.

*Ingredients are (in alphabetic order)  
Borax, Castor oils, Coconut oils, Nutmeg oils, Potash or  
Lye (consumed during production), Soybean oils, and distilled water.*

### Product Specifications:

Use it like any sanitizer. Squirt on your hands, rub all over, and leave it. Your skin and your health will say thank you.

Use it like hand cleaner. Squirt it on your hands, rub all over for at least 20 seconds, and then rinse with water. Any temperature water is fine, but keep it reasonable.

Use it like a waterless cleaner. When your hands are dirty and there isn't a handy faucet around, squirt twice as much into your hands. Rub well and thoroughly, perhaps 30 seconds, maybe a minute. Then use a clean rag or towel and wipe off the excess. You might want to repeat steps 1 or 2 at this point as well. But your hands are going to be very clean.

We've been making this since 2010 for people who get their hands extremely dirty and require absolute clean. People like doctors, nurses, and first responders.

**No Dirt. No Bugs. No Germs. No Viruses.**

Each bottle contains 9oz of concentrated sanitation. One bottle can last you months (price is for a single 9oz bottle)

Use it as often as you want to stay safe, and your hands will remain soft and healthy.

We salute our first responders, our nurses, our doctors, and everyone who also helps them get the job done.

**And we thank you for your help.**
