THE HAVEN DETOX

For more than ten years, thousands of people have trusted The Haven Detox for safe, affordable, and compassionate treatment. From your first call through long-term support, you're never navigating this alone. People choose The Haven Detox because the care is not one-size-fits-all. You receive medical detox, residential treatment, and evidence-based therapies supported by a team that understands complex needs. We also offer advanced options like GeneSight testing, EMDR, and IV therapy that help you heal faster and more effectively.

Behavioral Health Treatment for:

Substance Use Disorder • Primary Mental Health
Depression • Anxiety • Eating Disorders • Self-Harm
Post Traumatic Stress Disorder • Trauma • And More

Evidence-Based Services for Healing:

Cognitive Behavioral Therapy (CBT) • Dialectical Behavioral Therapy (DBT)
Mindful Based Cognitive Therapy (MBCT) • Individual & Group Therapy
Acceptance and Commitment Therapy (ACT) • Family Therapy Medication
Management • Experiential Therapy • Dual Diagnosis Eye Movement
Desensitization Reprocessing (EMDR) • And More

GeneSight Testing

GeneSight testing analyzes how patients' DNA may affect their response to certain medications for mental health conditions. By identifying which medications their body may process more effectively, the test helps providers reduce trial-and-error prescribing. This supports faster, more effective symptom relief.

Holistic Healing

Holistic treatments focus on caring for the whole person and not just physical symptoms. We combine traditional therapy with supportive practices like mindfulness, nutrition, and movement to help improve overall wellbeing. This approach strengthens balance, reduces stress, and supports long-term recovery.

Fitness & Nutrition • Aftercare Planning • Reiki
Massage Therapy • Motivational Interviewing
Acupuncture • Yoga & Meditation • Family Programs
Art & Music Therapy • And More

Substance Use Treatment

A wide range of substance-use treatments are available, beginning with medically supervised detox where patients are carefully weaned off of substances. Medications may be used to lessen withdrawal symptoms to comfort the patient. This is extended through residential programs designed allow a patient to fully focus on healing without distractions or triggers of everyday life.

Mental Health Treatment

Individualized mental-health treatment is also offered and moves beyond generic care, blending evidence-based therapies with advanced and holistic options. These are combined to treat many conditions like anxiety, depression, trauma, and bipolar disorder. Treatment is provided through residential care, where individuals can receive round-the-clock care.

Creating a Healing Environment

Healing takes more than clinical treatments—it's also about feeling supported, respected, and encouraged. Thoughtful amenities help bring a sense of normalcy, promote self-care, and make the overall experience more positive and engaging.

On-Site Gym • Game Room and Arcade
Movie Theater • Barbershop • Billiards
Pickleball & Tennis Courts • Basketball Court
Professionally Catered Meals • And More

*Amenities and services may vary based on location.
