

**PROFESSIONAL FULL FLOOR SERVICE
&
MAINTENANCE**

FLOOR FULL SERVICE

Floor Stripper: Removes old wax, dirt and stains off of the floor.

Floor sealer: Floor sealer is applied to the floor to prepare it so it accepts the wax finish by filling the pores of the floor.

Floor Wax: High traffic wax is applied to the floor after has been sealed to provide a level of shine you desire.

MAINTENANCE AFTER TWO MONTHS OF FLOOR SERVICE

Floor Scrub: This consist on scrubbing the floor to remove all the stains and dirt off the floor *without causing any damage to the wax.*

Floor Buff: Once the floor is clean and dry, our floor care professionals will apply buff chemical to the floor to finish they will buff it using a high speed buffing machine.

MAINTENANCE AFTER SIX MONTHS OF FLOOR SERVICE

Floor scrub: Our floor care professional will scrub the floor removing all dirt and stains off of the floor.

Re-Coat: Our floor care professional will apply as many coats of wax as necessary to make your floor look shiny.

MAINTENANCE AFTER 1 YEAR OF FLOOR SERVICE

Floor scrub: This time our floor care professional will *scrub the floor with a different pad*, this will not only remove stains and dirt but it will also remove a *really thin layer of wax*.

Re-coat: Once the floor its been scrubbed and its dry, our floor care professional will apply *as many coats of wax as necessary* to give the floor that new floor look that everyone likes!

BENEFITS OF ...

WAXING

Protects floor from marks, spill stains, scratches and **moisture**, which can cause damage to the floor, such as creating mold, deformities or even bubbles. Waxing also adds shine to your floors giving off a clean appearance.

WHY GIVE MAINTENANCE TO YOUR FLOORS...

When having high traffic areas, floor starts to show scuff marks and scratches making the floor look dull & worn out over time, giving maintenance to floor will help maintain that fresh look.
