

**Innovation In Mission
Discussion Questions**

www.innovationinmission.com

Thank you for hosting a group to view the Innovation In Mission Live Web Event. We are so thankful that you are investing this time as an organization to explore how you can implement innovation in your organization. This year's theme is "Getting Innovation Done." We invite you to use the questions below in debriefing with your team. You may want to provide this document to them ahead of the event so that they can be thinking about the questions as they attend.

1. As you heard from Carolina Salazar about various innovation tools, which one jumped out at you as an applicable resource to your situation?
2. How did J.D. Payne's insights on how God's Kingdom informs innovation help you get some new perspective on how you might implement innovation in your ministry?
3. As you listened to Rob Wassel's case study of implementing design thinking, what benefit do you think Pioneers will likely achieve through this model?
4. As you consider the Fast Company 50 Most Innovative Companies, what surprised you about these highly innovative companies?
5. What is one project you are involved in that you feel needs significant innovation?
6. What are the barriers that are keeping you from thinking in new ways about the project?
7. What will you do differently as you move that project forward based on what you learned today?
