

Growing Challenge - 2026 ORDER FORM

District I – FGCMMD, Inc.

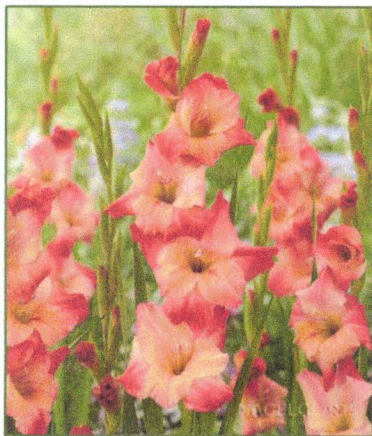

District I invites members to our new Growing Challenge!

All District I members start our fun growing contest with the same Gladiolus corm kits available for purchase and grow them to exhibit as cut flowering spikes in our District I Standard Flower Show, "Celebrating Maryland's Eastern Shore," in a special Horticulture Challenge Section titled "Chesapeake Sunset" on June 18, 2026. The top scoring exhibit will be awarded the District Director's Award, \$50, and all bragging rights.

Each order consists of 15 premium-sized Gladiolus corms; 5 corms per cultivar, complete with growing and exhibiting tips. You may order more than 1 kit per person. **Quantity is limited!** First come, first served.

With most of District I now regarded as growing zone 8 or higher, *Gladiolus* are no longer considered a annual but are in fact, perennials and will add special charm to your gardens in the years to come.

'Apricot Bubble Gum'
5 corms

'Bananarama'
