and more!

Hello & Welcome!

If we haven't met yet, I'm Shannon! Nice to meet you! I started learning lettering/calligraphy in 2018 so I could DIY some things for my own wedding.

Since then, I've expanded my lettering and design skills to much more broad applications. I've done invitations, greeting cards, envelopes, signage, seating charts, home decor, personalized gifts, murals, window splashes, menu boards, digital graphics, logos, and more!

I also have a YouTube channel (soon to be 3 channels actually - more on that later) where I teach some of these skills to those who want to learn how as well.

In this booklet you'll find a portfolio of my work and how to find me if you need me for something! I would love to work together on a custom project with you!
